## Governor Calls for Economy

Appropriations for State Departments And Institutions Are Recommended

By Larry Hall

JEFFERSON CITY, Feb. 5.—(P)—Gov. Phil M. Donnelly recommended today the Missouri Legislature appropriate \$101,657,186 from general revenue to operate state departments and institutions during the biennium beginning next July 1.

The total represented a cut of almost 25 per cent in departmental requests which totaled \$134,863,537. It compared with general revenue appropriations amounting to \$91,818,834 for the current biennium, when an additional \$30,000,000 was set aside as a post-war reserve.

Altogether, counting general revenue, \$100,026,718 in federal funds, \$159,358,150 in highway funds, \$4,750,000 from the post-war fund, \$51,351,672 as the one-third of general revenue appropriated to public schools, and other state funds the governor's budget recommendations totaled \$452,635,542.

### Overall Total

That compared with a grand total of requests reached \$516,590,968. For the current biennium the overall total appropriated from all funds was \$379,504,057.

Calling for economy and careful

JEFFERSON CITY, Feb. 5.—(P)—Gov. Phil M. Donnelly recommended today 1947-49 biennial appropriations totaling \$114,191,910 for Missouri's institutions of higher education, a figure not including any expansion money for the crowded schools.

The amount set by the governor was nearly \$5,000,000 less than requested by the university, the five state colleges, Rolla School of Mines and Lincoln University of Negroes at Jefferson City. But it reflected an increase of more than half a million dollars over the amount the schools are expected to spend during the biennium ending June 30 this year.

fiscal management, the Governor cautioned the legislature in an introduction to his 291-page budget message, a balanced budget could not be maintained if it exceeded his recommendations very much.

"A careful study of the facts and figures contained in this message will reveal the need for economy in the expenditure of state funds," he said.

"It will be noted that total requests for appropriations for the 1947-49 biennium have been cut almost 25 per cent in order to achieve a budget total in balance with total anticipated revenues available for the biennium. Any major disturbance in the relationship between these totals could result in an unbalanced budget, with consequent dipping into reserves.

### Expenses Heavy

"The expenses of government are heavy. At the same time prudent management and business-like practices can keep those expenses within bounds. Missouri's financial soundness depends upon that kind of administration of the business of the state, as well as in the wise and careful handling of fiscal affairs."

The Governor estimated that if his budget recommendations were followed, the general revenue fund would have a balance of \$16,338,730 on June 30, 1949, a gain of \$14,679,572 over the amount expected to be available when the current biennium ends June 30.

He noted that the recommendations were "advisory, as the general assembly has authority to make such changes as its judgment may dictate."

Donnelly dipped into the post-war fund for three suggested appropriations—\$2,000,000 for a new state office building in Jefferson City, already authorized by law, another \$2,000,000 to finance the King "milk route" law for state aid to rural roads, passed last year, and \$750,000 for state airport aid, also authorized by the last legislature.

## The Weather

Central Missouri: Partly cloudy tonight and Thursday. Lowest tonight near 25 degrees.

Temperature: 7 a. m., 9 degrees; 3 p. m., 39 degrees.

Lake of the Ozarks: 57; fall 4.

Sun rise 7:03 a. m. Sun set 5:26 p. m.

Full moon February 5; last quarter February 12.

### Thought for Today

Is there any other seat of the divinity than the earth, sea, air, the heavens, and virtuous minds? Why do we seek God elsewhere? He is wherever you see. He is wherever you move.—Lucan.

## Addition to Packing Plant

Shown above is an addition to the Burnett Packing company, West Main street road, being built by the Cramer & Schrader Construction company, 109 East Second street. Estimated cost of constructing the new annex will be \$85,000. Total cost including new equipment and installations will be around \$125,000. The added section will be a complete new killing floor for hogs and cattle with the basement being used as a curing cellar. A smaller building being constructed behind the annex will be a rendering plant. The work should be completed in 30 days, according to the plan. (Democrat-Capital Staff Photo)

## Charles Lane Suffocates in Hotel Room

Apparently Fell Asleep While Smoking a Cigaret

Charles Lane, 44, died from suffocation from fire and smoke in his room at the Milner Hotel, about 10:30 o'clock Tuesday night. Fire started, it was said by firemen, when the man apparently fell asleep while smoking in bed and set fire to his mattress.

The fire was discovered by Grover Gaston, Charleston, Ill., who had room 242, which was directly across a court from Lane's. He noticed the flames and smoke coming from the room across the court and notified Al Devine, night clerk. Devine in turn called the fire companies.

In the meantime Clyde Raines, Glenn Thompson and Jess Tuggle who were in rooms down the hall, heard someone say there was smoke coming from a door and they rushed into the hall. About that time David Kellner, elevator boy, who lives at the hotel and Lewis Straw, negro, 117 West Henry street, a janitor, arrived on the scene.

### Forced Door Open

Raines and Tuggle forced open the door and began fighting the fire with extinguishers. Kellner and Straw went into the room and found Lane lying at an east window on the floor, several feet from the bed, and pulled him into the hall.

Firemen soon arrived, took over the fire fighting and had the flames extinguished in a short time, but not until after more than \$200 damages resulted to the building and about \$150 to the contents.

### Inhalator Used

An inhalator from McLaughlins was used, with Frank Chaney operating the machine while Assistant Fire Chief William Middleton and Police Officer Norbert White gave artificial respiration. They worked with the man for more than forty minutes. Dr. D. R. Edwards and Dr. K. L. Holdren, coroner, pronounced the man dead at 11:24 o'clock. An inhalator from Gillespie's was summoned, but not used.

Dr. Holdren conducted an examination of the body at the McLaughlin chapel. He reported it was evident Lane had breathed flames and smoke which caused his death.

It was apparent Lane was endeavoring to get away from the fire as his body was found near an open east window of the room. The left side and left front part of his face suffered third degree burns.

Lane had registered at the hotel on January 15 and had re-registered from day-to-day since that time, keeping his same room, which was 302.

### Native Sedalian

He was born in Sedalia in September 1902, and had resided here practically his entire life. Surviving are two daughters, Mrs. Leo Bratten and Mrs. Frank Brown both of Wheaton, Mo.

Also surviving are three brothers, Cecil Lane of Kansas City, Hobart Lane of Columbia, and William Lane of 506 South New York and a sister Mrs. D. W. Thomas, 517 North Prospect avenue.

Funeral arrangements will not be made until after the arrival of his daughters and brothers. The body is at McLaughlin's.

### Bandits Chicken-Hearted?

BOSTON, Feb. 5.—(P)—When two holdup men threatened Harry Gordon in his market, he made a hasty but effective choice of defensive weapons.

Gordon jabbed a pencil at the eyes of the nearest thief and held him at bay while he reached for a meat cleaver.

That did it. The intruders fled.

## Lee Lovinger, a Former Sedalian, Receives Medal

Lions Discuss Civic Affairs

The Sedalia Lions club held its regular meeting at the Bothwell hotel at noon today, at which time a roundtable discussion of various civic problems were held.

The club had before it a discussion of a proposed public recreation center, a swimming pool and a stadium. Members of the club were assured the recreational center will come in for further discussion.

As to the stadium, it was explained, it is anticipated the stadium bond subscription and the movement for the swimming pool is well underway by the Sedalia Chamber of Commerce Round Table.

Members of the club received cigars from William F. Brown, vice president, who was recently married.

Guests were Dr. W. Garton with Dr. F. I. Lawrence and Mr. Ruhl of St. Louis with John Asher.

## Engineer Dies In Train Wreck

LITTLE ROCK, Feb. 5.—(P)—The locomotive and four cars of the Rock Island's passenger train No. 112 were derailed near Maumelle station, 18 miles west of here, early today and the engineer died in the wreck.

Railroad officials said the engineer, G. E. Haggard, Little Rock, was scalded by a broken steam line as the locomotive leaned against an embankment. The railroad said no one had been reported injured.

None of the cars overturned and passengers were brought to Little Rock on a special train.

Officials of the road said they did not know immediately the cause of the derailment.

The accident occurred at 2:21 a. m., as the passenger train, operating from Tucuman, N. M., to Memphis, was approaching Little Rock on time.

The Rock Island Rocket was sent back to Wister, Okla., and de-toured to Little Rock over Frisco and Missouri Pacific lines. No other passenger trains were affected by the blocked line, the railroad said, and it was expected to be cleared by tonight.

## Former Acting Police Chief Guilty of Theft

POPLAR BLUFF, Mo., Feb. 5.—(P)—Robert Harris, former acting chief of police, was sentenced to a year in jail and fined \$50 then paroled by Judge Randy Weber yesterday afternoon when he admitted theft of a watch from a city prisoner.

The watch, Harris admitted in circuit court, was taken last March 14 from the glove compartment of an automobile owned by a man arrested on a minor charge. The officer was suspended immediately after charges were filed.

### Amount of Subsidies

WASHINGTON, Feb. 5.—(P)—The agricultural department said today farmers will receive about \$4,000,000,000 from marketings and government subsidies during the first two months of this year.

This amount would be 30 per cent greater than in the corresponding period of 1946. Twenty-five per cent of the increase will be a reflection of higher prices, the department said.

### Missourian Nominated

WASHINGTON, Feb. 5.—(P)—President Truman sent to the senate today nominations of 38 men to be generals in the National Guard.

Brigadier generals named include Winston Weidner Kratz of Missouri.

## C of C Sponsors Meeting to Talk Housing

Information for War Veterans; Session Thursday

Full information to aid private industry in providing rental housing for World War II veterans and their families will be outlined Thursday night, at a Rental Housing Conference, to be held in the assembly room of the court house at 7:30 o'clock, according to Albert Zurcher, director in charge of the Chamber of Commerce housing division.

Attending the meeting will be representatives of builders, realtors, material dealers, architects, financial institutions, labor organizations and veteran groups, together with district director David H. Powell of the Federal Housing Administration and a large part of his staff from the Kansas City insuring office, and a representative from the regional office of the national housing agency.

The main purpose of this district-wide conference is to outline recent changes in FHA procedures and policies which have been made in order to encourage larger production of rental dwellings for veterans as part of President Truman's housing program for 1947. Local meetings will be held in the immediate future in all the larger cities of the western district of Missouri.

### To Outline Changes

Discussions at the conference will concentrate on the new opportunities for producing rental housing projects offered by the Federal Housing Administration under new policies announced by Raymond M. Foley, commissioner of FHA, who recently was also made administrator of the national housing agency.

Proceedings will be opened by Albert Zurcher. He will read a letter on the rental housing program from FHA Commissioner Foley. He will then introduce the district director David H. Powell, who will outline the three broad phases to be discussed in detail by Chief Underwriter Preston L. Moss and other members of his staff.

These three avenues of approach which will be used for obtaining additional rental units are:

1. Conversion of existing structures which will produce the quickest action at lowest cost and probably at lowest rentals, under Title I of the National Housing Act.

2. Construction of more two, three and four-family units under Section 603, Title VI. This is considered the next speediest method and one which will broaden opportunities for builders and investors.

3. Production of more large-scale rental structures under Section 608, Title VI.

A representative of the National Housing Agency will discuss the outlook for materials in 1947.

Mr. Powell and members of his staff will be at the Chamber of Commerce office all day Friday to discuss particular problems with interested individuals.

## Algoa Inmate Dies in Crash

MEXICO, Mo., Feb. 5.—(P)—John Buckner, a member of an Algoa reformatory basketball team, was killed last night in a motor car accident after his team had played the Garfield high school team here.

George Adams, prosecuting attorney, said his investigation disclosed that Buckner and Clarence Butler, also a member of the team, were riding with Raymond West of Mexico when the car overturned on a curve a mile east of here.

Adams said the two players had accompanied the team to a cafe after the game, but made a trip back to the high school building. While there they asked West to drive them back to the cafe.

Butner was unhurt. West suffered minor injuries.

Buckner, 19, a Sedalian, is survived by his mother, Mrs. Lucille Brown, 518 North Montauque avenue, a grandmother, Mrs. Julia Wheeler, three aunts, Mrs. Levi Penn, Mrs. Anna Lollis, and Mrs. Noah Bishop, all of Sedalia; two uncles, Henry Frazier, Chesterton, and LeRoy Frazier, Wilmington, Penn.

The body was brought this afternoon from Mexico to the Alexander Funeral Home.

Funeral arrangements are not complete.

## Suffers Broken Leg In Jump From Porch

DEXTER, Mo., Feb. 5.—(P)—Mrs. Marie Higdon, 42, suffered a broken leg and other injuries when she jumped from a burning second story porch of a burning apartment building here yesterday.

The three, Louie Clemmons 22, and Billy Vinson, 21, of near Poplar Bluff and Clifford O. Williams, 21, of St. Louis, were arrested by Sheriff Bill Brent and city police last night. They readily admitted the charge, Brent said.

Williams testified in court he and Clemmons dared Vinson to pull a wash basin from the wall and he took it up.

## Failure to Get Clutch Holds Up Garbage Collection

Late this afternoon a telegram received stated that the equipment is now complete and will be shipped to Sedalia on the 17th of this month.

The new city garbage disposal system will not be put into effect for at least another month, according to city officials.

The whole works is being held up for the time being by the lack of a clutch for the tractor to be used with the bull clam in digging the series of trenches north-west of town for depositing the garbage.

The tractor and bull clam were to have been delivered to the city sometime last October but the employees of firms manufacturing the special type of clutch required by the tractor have been on strike and the part has been unavailable.

The remainder of the equipment, four new trucks featuring mechanical garbage packers, arrived several weeks ago.

The Pettis County Court has completed, after considerable difficulty, the 1947 budget for this county. Complications arose over laws created through the new constitution. It has been completed and has been increased substantially.

The 1947 budget figures call for an over-all total of \$305,150.15, this figure, higher than the 1946 over-all total of \$222,840.07. However the decided increase was made through the fact that Class 3, which is Roads and Bridges, not in special districts, was never used before. Class 3 budget this year adds \$55,689.31.

The county court concurred in a joint statement in regard to the budget, and is signed by Judge J. V. Kesterson, presiding judge, Judge Edw. C. Giss, judge of the western district, and Judge Vernon Glenn, judge of the eastern district.

The county court has finished setting up and has approved the county budget for the year 1947.

"It has taken longer this year than usual to get the budget properly set up due to the adjustments necessary to comply with the new laws written to meet the requirements under the new state constitution."

"The county court in announcing the approval of the budget for 1947 expressed themselves as being very grateful to all of the county officers, holders for their whole-hearted support in helping to set up a budget that will not work any hardship on the county taxpayers."

"Provision in the 1947 county budget has been made to match state funds on the State Aid Road Program as set up last year under the King Bill. The state appropriation supporting this bill has been declared unconstitutional by the state attorney but the State Highway Department advises that they are certain that an appropriation will be made covering this."

"It is highly possible that the state authorities will not appropriate the full ten million dollars covering a five year period, but will approve two million to cover a one year period."

"Provisions have been made in this 1947 budget to meet the requirements of the new constitution with reference to other road funds."

"Provision has been made in this budget for the purpose of additional road equipment which will be paid for out of surplus funds."

"The county court in setting this budget expects to make no increase in the county road levy which will be set next fall after the equalization board has met. This provision meets with the requirement of the new state constitution."

Six Classes  
The budget as to classes:  
Class 1—Care of the insane, \$15,000.  
Class 2—Jury and elections, sheriff and circuit court costs, \$13,350.70.  
Class 3—Roads and bridges, (not in special districts), \$55,689.31.  
Class 4—Officials and employees salaries and office expenses, \$94,808.98.  
Class 5—Contingent and emergencies, General operation, bonds, insurance, welfare and upkeep on county buildings, \$44,441.16.  
Class 6—Equipment, purchases or other legal expenditures, \$81,850.00.

had moderated "quite a bit" over the eastern slope of the Rockies and in the Great Plains, and would moderate slowly today in the southern great plains and Mississippi valley. However, the bitter weather will continue into New England today and the weather bureau said there would be "some further intensification of it" in Florida.

Otherwise, west of the Appalachians temperatures will moderate today, tonight and tomorrow, but a new surge of Arctic air is expected to begin overspreading the extreme northern great plains late tomorrow and will extend well down into the planes and upper Mississippi valley and Great Lakes region by Friday morning.

Sample low temperatures for the states affected by the present cold wave were—28 at International Falls, Minn.; -26 at Pembina, N. D.; -2 at Burwell, Neb.; -9 at Mason City, and Spencer, Ia.; 3 above at Kirksville, Mo.; 19 at McAlester, Okla.

The federal weather bureau in Chicago reported sharp drops in temperature in eastern cities. In Washington the mercury skidded to 7 above as compared to a high of 47 yesterday. In New York today's reading was 8 after several days of comparatively mild temperatures, including 50 on Tuesday.

The body was brought this afternoon from Mexico to the Alexander Funeral Home.

## Limited Wrecked, 4 Dead

Streamliner Crashes Into Gasoline Truck on Outskirts Of Kingsburg, Calif.

FRESNO, Calif., Feb. 5.—(P)—The flaming crash of the Southern Pacific railroad's streamlined daylight limited into a loaded gasoline truck claimed an additional fatality today, bringing the dead to four.

Ninety passengers were injured—some 12 remaining in serious condition—when the orange-colored streamliner was enveloped in flames which completely or partially gutted ten of the 14 cars.

The fourth victim died in Kingsburg hospital early today. She was Katherine Ann Hansen, 17, of Pasadena, a victim of burns. Earlier the engineer and fireman and a woman passenger had died.

The daylight left Los Angeles yesterday morning en route for Oakland and San Francisco. It struck the tank-trailer of the gasoline truck at 3 p. m. on the outskirts of Kingsburg, 20 miles south of Fresno.

Streamliner  
The train was the streamlined San Joaquin Daylight enroute from Los Angeles to Oakland. It was sprayed with burning gasoline and turned into a blazing wreck in a matter of seconds; its lavishly-decorated orange cars jammed with frantic passengers smashing windows and fighting crazily to escape.

Only ten of the streamliner's 14 cars burned and none of them left the tracks, but the sudden envelopment of the train in blazing gasoline and deadly fumes created a near-panic among the hundreds of passengers who, a moment before had been leisurely enjoying the streamliner's club cars and other comforts.

There was a tremendous explosion as the streamliner racing through the flatlands of the San Joaquin valley, slashed into the tank truck at 3:25 p. m. (PST) yesterday. For hours afterward railway officials, the Red Cross and other relief agencies struggled to aid the scores of casualties and find out the extent of the disaster.

The dead, identified by the railroad as Mrs. Sara E. Badgley of Dunsmuir, Calif.; Geo. Schneckenberger of Bakersfield, the engineer and Ernest N. Comer, Bakersfield, fireman.

Truck Driver Escapes  
Philip Lee Mayer, 21, of Fresno, the truck driver, in some miraculous manner, escaped injury.

The scene was one of tragic horror as the searing flames trapped many of the 500 passengers in the cars.

Some passengers were injured when they smashed windows and jumped from the cars through flames that leaped eight to ten feet high—burning grass along the right of way added to the fire hazard.

B. W. Mitchell, Southern Pacific division superintendent at Fresno, was informed that nine cars burned out completely and one was scorched. In San Francisco, the company said its reports listed two dining cars destroyed or badly burned, seven seriously damaged.

The locomotive and the rest of the train remained on the track.

Measure on Auto Parking

JEFFERSON CITY, Feb. 5.—(P)—A constitutional amendment proposal to give free fishing privileges in Missouri to persons over 65 was introduced in the senate today by Sen. Harry J. Revercomb (D) of Shelby.

A similar proposal, which also included free hunting, died in the house last year.

A new bill by Sen. Hartwell G. Crain (R) of St. Louis county would give citizens under 15,000 the right to acquire and operate automobile parking facilities, financing them from operating revenues or bond issues.

Crain, asking immediate effectiveness if the bill passes, said the measure was necessary "to alleviate dangerous traffic congestion" throughout the state.

Bothwell Hospital Notes  
Mrs. Frances Burke, 412 North Hurley avenue, admitted for medical treatment.

Marvin C. Mitchell, Gallatin, Mo., Mrs. Leonard Lobough, 103 South Main street, and Mrs. B. B. Borenburg, Cole Camp, Helen Biery, 922 West 6th street, and Fred Dwyer, 1819 South Warren avenue, dismissed.

Miss Carolyn Morgan, 919 East Broadway, and Hadley Stahl, Syracuse, dismissed today at the Bothwell hospital.

Mrs. Dennis Brunkhorst, Florence, and Mrs. George L. Mosby, 1508 East Tenth street, admitted today for medical treatment.

Mrs. Raymond Nagel, Hughsville; twin sons of Mr. and Mrs. Dale Johnson, 2703 East Twelfth street, born January 10; Emil Ertel, Lincoln; Rev. U. J. Landell, Cole Camp, and Mrs. Jane Johnson and daughter, 218 West Fifth street, dismissed today.

ST. JOSEPH, Mo., Feb. 5.—(P)—One hundred and five stockyard workers in a wage dispute with the St. Joseph Stockyards company, voted last night to strike at midnight Sunday.

A walkout by the yard men, members of local 212, United Packing House Workers of America (CIO), would cause a shutdown of the city's live stock industry, which employs 4,000 persons.

Charles L. Wilson, the local president, said a deadlock had been reached in negotiations, started last November, with the union asking ten cents an hour increase, and the company offering five cents.

F. C. Black, president and general manager of the company, declined to comment on the strike vote, which Wilson said was unanimous.

ST. JOSEPH, Mo., Feb. 5.—(P)—Three men were given sentences of three months in jail and fined \$500 each in magistrate court here today for damaging plumbing fixtures, flooding three floors of the four story Butler county courthouse early yesterday.

The three, Louie Clemmons 22, and Billy Vinson, 21, of near Poplar Bluff and Clifford O. Williams, 21, of St. Louis, were arrested by Sheriff Bill Brent and city police last night. They readily admitted the charge, Brent said.

Williams testified in court he and Clemmons dared Vinson to pull a wash basin from the wall and he took it up.

The water from the broken waterline damaged building and contents more than \$1000, Presiding Judge J. O. Raley of the county court said.

## The Daily Washington Merry-go-Round

WASHINGTON, Feb. 5—Those who have watched General Marshall close-up think he has made an excellent, fast-moving start as secretary of state. However, they still have their fingers crossed. Too many "new brooms" have come into the state department before they rarely sweep out the corners, seldom get the dust out from under diplomatic rugs. In his brief tenure, however, Marshall has:

1. Named able, sometimes timid Undersecretary of State Dean Acheson as chief of staff with complete authority to cleanse the department.

2. Backed up Spruille Braden's position that Argentina must purge the Nazis. Simultaneously, Marshall avoided an unpleasant situation with windy Ambassador George Messersmith.

3. Pledged his firm belief that the state department is a civilian agency and should be run by civilians, not brasshats. To this end, Marshall has told intimates he will bring no generals or regular army men into the state department.

4. Moved to solve one thorny United Nations headache — the atom bomb. Without appearing to do so, he's eased tension on the red-hot atomic-energy issue, so long debated in New York.

**Diplomats Agog**

Secretary Marshall's breath-taking pace has set the usually staid Washington diplomatic corps afire. Diplomats who barely stir from their offices can now be seen whispering at cocktail parties, bouncing around hotel luncheon tables comparing notes on the significance of Marshall's every move. The diplomatic cables have been cluttered with memoranda from Washington embassies analyzing the new secretary of state.

Marshall upset members of the British colony by holding his first lengthy diplomatic talk with Soviet Ambassador Novikov, not Britain's Lord Inverchapel.

Later, Marshall met the new Polish ambassador. The interview lasted seven minutes. Marshall said Hello, made it bluntly clear that the United States regards the latest Polish elections a joke, sent him trotting on his way. Marshall was equally decisive on the Chinese crisis, landed a haymaker on Chiang Kai-Shek's chin by announcing the recall of U. S. troops, which, in effect, have been helping the Kuomintang fight the Communists.

**Cabled Stalin**  
Marshall has served notice that he'll deal with only a maximum of eight top state department officials daily. This may or may not be a good thing, since it's dangerous for a secretary of state to get too isolated. He wants all memos written on a single page, will countenance no undercutting by subordinates. Many a stuffed shirt who played hard and fast with Ed Stettinius' innocence or Jimmy Byrnes' good nature now will find himself reduced to the rear echelon.

Marshall wants to conserve his strength for the one big battle ahead — working out a permanent peace with Russia. Marshall

**FRESH BLOOD A MUST FOR FREE ENERGY**

Do you feel like you are tied to a drag every time you try to do something? If so, don't let a low blood count hold you down when you may release vibrant energy to every muscle, fibre, cell. Every day—every hour—millions of tiny red-blood-cells must pour forth from the marrow of your bones to replace those that are worn-out. A low blood count may affect you in several ways: no appetite, underweight, no energy, a run-down condition, lack of resistance to infection and disease. To get real relief you must keep up your blood strength. Medical authorities, by analysis of the blood, have by positive proof shown that SSS Tonic is amazingly effective in building up low blood strength in non-organic nutritional anemia. This is due to the SSS Tonic formula which contains special and potent activating ingredients. Also, SSS Tonic helps you enjoy the food you eat by increasing the gastric digestive juice when it is non-organically too little or scanty—thus the stomach will have little cause to get balky with gas, bloating and give off that sour food taste.

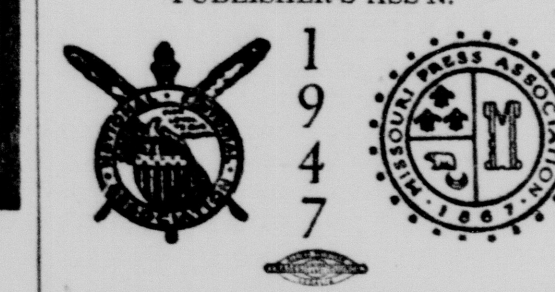

Don't wait! Energize your body with rich, red-blood. Start on SSS Tonic now. As vigorous blood surges throughout your whole body, greater freshness and strength should make you eat better, sleep better, feel better, work better, play better, have a glow in your skin—firm flesh fill out hollow places. Millions of bottles sold. Get a bottle from your drug store. SSS Tonic helps Build Sturdy Health.

**THE SEDALIA DEMOCRAT**  
Sedalia, Mo., Wednesday,  
February 5, 1947

knows the Russians, has dealt with them before. Now he's determined to make one final effort to reach agreement on all issues from Germany to the Dardanelles. If the Russians meet him halfway, there'll be peace. If they don't, the world will know plainly who is to blame. Marshall already has cabled Stalin for a full-dress talk in Moscow next March.

Note — One Marshall error was to let able, hard-hitting Joe Panuch resign as deputy assistant secretary of state for administration. Panuch knows government inside-out, did a bangup job of administration despite little co-operation from the career clique. Now that he has left, Marshall has already reversed one Byrnes decision which is a victory for Panuch. He soon will move the state department to more efficient quarters several blocks from the department's present location next to the White House. This was a Panuch proposal.

**How to Prune 1,000,000 People**

Though GOP Congressmen John Taber of New York and Harold Knutson of Minnesota boasted that government personnel could be reduced by 1,000,000 employees, neither congressman was able to answer the \$64 question as to where the personnel cuts could be made. The question was lengthily debated at the closed meeting of the joint budget committee, but nobody could answer it.

Taber harped at length on public relations employees throughout the government — "propagandists," he called them — who should be purged at once from the payroll. But, outside of that, he and Knutson had little to offer the committee. At one point, Democratic congressman John Dingell of Michigan broke in on the New York Republican:

"All right, I'm willing to be educated," he said. "I don't want any nonessential employees sponging on the taxpayers. But suppose you tell us where all of them are."

"Most of them are in the war department," replied Taber. "How about all those civilian employees with our occupation forces overseas? There are about 300,000, I understand."

Taber held that the 300,000, mostly war veterans, should be discharged and replaced by citizens of occupied countries, who could be recruited without pay.

"Why not put some of the people in occupied countries to work so they can earn their keep?" Taber demanded.

**Put Nazis to Work**  
"Do I understand the gentleman clearly?" inquired Dingell. "Does he want the United States army to employ aliens?"

Committee colleagues roared while the New Yorker groped for a reply. Dingell went on to explain that most of the civilian overseas jobs, including military government work, had to be filled by "tried and true" Americans for security reasons.

"Well, I suppose we have to have our own people in some of these jobs," grumbled Taber, "but I still think we ought to get some work out of these citizens in the occupied areas. We are keeping a lot of them for nothing."

Representative Albert Gore of Tennessee and other Democrats also objected to the Taber-Knutson "meat-ax" approach to personnel trimming.

"The army, navy and veterans administration will make reductions as swiftly as possible without coercion," one of them declared. "We can't do the job now with a meat-ax without crippling the government and at a risk to security in some cases."

Budget Director James Webb expressed the same view. He testified that veterans administrator Omar Bradley already had been cut below his personnel requirements to handle the vast flow of service insurance business, GI terminal leave applications and hospital maintenance.

"Well, where can cuts be made?" said Knutson. "Give us some clues. You are in a position to know about such things."

Taber, Rep. Dan Reed of New York and Sen. Eugene Milliken of Colorado joined in the demands for "clues" from Webb, but the budget director refused to be put on the spot. He contended that his bureau makes a practice of keeping a close check on the payrolls of federal departments and agencies and recommendations cuts wherever possible. These recommendations always have been followed, he said.

However, Knutson et al continued to pump the budget director like a police witness withholding information. Finally Tennessee's Congressman Gore angrily demanded a halt.

"It is not within Mr. Webb's province to answer questions like that," he declared. "This is a legislative problem. It is up to us, not the budget bureau, to determine where personnel reductions can and should be made."

**Argentine Communist Double-Cross**

Argentine Communist leaders openly boast that they double-crossed Spruille Braden during last year's political campaign which resulted in the election of Juan D. Peron.

Nominally, the local Reds were part of the Democratic Union coalition that supported the unsuccessful candidacy of Jose Tamborini. But Communist party officials now claim that they were merely "using" the opposition parties and U. S. Assistant State Secretary Braden as levers in driving a bargain with Peron.

"We could have swung the election the other way in the last two weeks of the campaign," a Communist spokesman recently admitted. "But we didn't even try. By then, we knew about the agreement between the Soviet Union and Peron for mutual recognition, and Peron had guaranteed us complete freedom in return for support of his five-year plan."

"Besides, Tamborini as president would have been under the thumb of Braden and the United States, which would have been the worst thing in the world for Argentine workers."

Though this Communist claim

may appear surprising, it is given some credence by the fact that, after Braden left his ambassadorial post in Buenos Aires in Aug. 1945, U. S. Charge d'Affaires John Cabot refused to continue supplying the Communists with funds, as Braden had been doing. Instead, he referred all such requests directly to the state department.

Cabot's intimates say that he was well aware of the local Reds' plans to sabotage the anti-Peron campaign.

## NEURITIS PAINS LIKE AN ELECTRIC SHOCK TO A LOCAL WOMAN

Just recently a middle-aged woman of this vicinity told us that she had suffered 3 years of torture with neuritic pains. She said she felt like a sharp knife was being gouged into her muscles, and sometimes these pains would strike her like an electric shock. She said one could hardly stand it. Today this lady is again enjoying life, and she says the change is due to taking RHU-AID. Her pains are gone now. No more feeling like a knife gouged into her muscles. She is entirely free of her misery, thanks to this remarkable compound.

RHU-AID is the new liquid formula containing three valuable medical ingredients. These Three Great Medicines, all blended into one, go right to the very cause of rheumatic and neuritic aches and pains. Miserable people soon feel different all over. So don't go on suffering! Get RHU-AID. Sold by All Drug Stores here in Sedalia.

## DECORATION DAY A LONG TIME AWAY?

It isn't if you desire to have a Monument or Marker erected by then.

The eight weeks preceding May 30th are our busiest of the year, and some orders placed late cannot be completed by that time.

Be wise and place your order with the Heynen Monument Co., now. Let them have the time to give it the careful attention it needs to make a beautiful and lasting tribute to a loved one.

Select a memorial this month from the Heynen Monument Co., Ohio and Pacific St., and be assured that it will be erected before Decoration Day.

## Social Events

Miss Betty Lujen, daughter of Mr. and Mrs. S. J. Lutjen, 403 West Twentieth street, and Sgt. George Bain, son of Mr. and Mrs. B. E. Bain, of Perkins, Mo., were married at three o'clock Tuesday afternoon in Saint Paul's Lutheran Evangelical church, by the Rev. H. H. Heidbreder, pastor.

They were attended by Mr. and Mrs. E. O. Lutjen. The bride chose a medium blue wool suit, with brown accessories, and wore a corsage of gardenias. The matron-of-honor wore a royal blue street-length dress, with black accessories, and her flowers were red carnations.

Immediately following the ceremony, a wedding dinner was served to the bridal party, the family, and several close friends, at the home of the bride's parents. Those attending were: Sgt. and Mrs. Bain, Mr. and Mrs. E. O. Lutjen, Mr. and Mrs. S. J. Lutjen, Dorothy and Earl Lutjen, brother and sister of the bride, Miss Mary Catherine Backer, Pfc. Robert L. Bidus, Misses Doris Helen and Betty Lee Maddox, Mr. and Mrs. N. M. Meyer, Del Henderson, and Miss Juanita Meyer.

The bride was reared in Sedalia, and attended the Sedalia schools. She is now employed at the W. W. Woolworth Co.

The bridegroom, who is stationed at Greenville, S. C., is on a 30-day furlough, at the end of which he will return to his base. Mrs. Bain will remain in Sedalia.

The Sorosis club met Monday afternoon at the Heard Memorial club house. Mrs. D. S. Lamm, president, presided.

Mrs. Philip McLaughlin introduced the afternoon speaker, Mrs. Elvina Zurcher Gumpito.

Mrs. Gumpito, who was born in Biel, Switzerland, spoke on the art and beauty of Switzerland. Switzerland, known for its beauty of lakes and mountains is an island of peace in all times. In 1815 it was declared a neutral state by the Congress of Vienna. There is a president every year who directs and advises the cabinet.

Switzerland owns its own rail-

## Mixed Costumes on the 'Amber' Set

Traditional flowing garments of Arabia contrasted strangely with costumes of 17th Century England when his royal highness, Prince Saud Al-Saud, of Saudi Arabia and his entourage visited the set of "Forever Amber" in Hollywood. Pictured, left to right, are actor Cornel Wilde; the Prince and Linda Darnell, who plays Amber.

roads and produces its own alcohol putting the revenue from the sales into the schools.

Many fine schools are found in this country and people from many countries go there to study. The people of all occupations do quite a lot of studying to perfect their trades. Girls have the same privileges as the boys in the schools.

It is the playground of the world sports. There are sports for both the young and old, such as skiing, skating, tobogganing and the many cabins where people can stay in the mountains.

Mrs. Gumpito showed slides of the flowers, natives and scenery of Switzerland. She was assisted by Mrs. Lewis Feaster.

Mrs. T. H. Yount announced the program for next week.

Mrs. Virgil Quint and Mrs. David Mahnen gave a party Saturday night at their home, Route 4, Sedalia, in honor of Miss Betty Jo Tharp who will be married in the near future.

Liverpool rummy was played with prizes being awarded to awarded to Misses Alma Wise and Mayme Oswald. Red and white flowers decorated the home in keeping with the Valentine tradition. Refreshments of heart shaped ice cream and cakes decorated with hearts were served to the guests.

Miss Tharp received a gift which she found from clues scattered throughout the rooms.

Invited guests were: Miss Tharp, her mother, Mrs. Clyde Tharp, Mrs. Ralph Hanes, Mrs. W. B. Hurt, Mrs. Bryan Shoemaker, Mrs. Irvin Cramer, Misses Challis Johnson, Alma Wise, Mayme Oswald, Marian Norton, Margaret Karrigan, Bea Gentry and Norma Lee Kindred.

The Mozart Music club met at the home of Mrs. Jewell Harter Thomas, Sunday afternoon, February 2, at 4 p. m. The meeting was opened by all singing "America" accompanied by Mrs. Thomas. Sally Jo Dowdy, the club president, presided.

Musical contests followed, with awards going to Theresa Cook and Jane Boul. Each pupil gave the biography of a composer, whose birthday was in the same month as their own.

The program was as follows: Blue Butterflies (Mainsville) Betty Sue Wills. Elfin Dreams (Wolfe) Charlotte Bahner. The Gypsies Are Coming (Rogers) duet, by Mary Ann Young and Mrs. Thomas.

Bells of St. Mary's (Adams) Jo Ann Wissman. Norwegian Dance No. 2 (Grieg) Regina and Jane Boul. The Gypsies (Rogers) Regina Boul. The June Bug's Dance (Holst) Dick Amos.

Minuet From Serenade in G (Mozart) Duet by Theresa Cook and Jane Boul. Rustle of Spring (Sinding) Jeanie Anderson. Aragonaiso (Massanet) Duet, Theresa Cook and Jane Boul. Valcik (Mokrejs) Jeanie Anderson.

Consolation (Mendelssohn) Joan Hyatt. Dance of the Elves (Krueger) Sally Jo Dowdy.

The Junior Garden Club committee met Saturday with Mrs. Herbert Seifert, at Eleventh street and Beacon avenue, to organize for their spring work.

The committee is composed of Mrs. A. W. Klang, Mrs. J. C. Ryan and Mrs. Lelia Shortridge, all from Circle 1; Mrs. L. W. Satorious and Mrs. L. J. Harned, both from Circle 2; Mrs. C. L. Carter of Circle 3; Mrs. J. H. Hosford, Mrs. Kenneth Middleton and Mrs. R. J. Hausam, of Circle 4; Mrs. Oscar DeWolf of Circle 5 and Mrs. F. T. Rucker of Circle 6. Two guests were Miss Helen Chamberlain, teacher at Horace Mann school, and Mrs. Mary Maddox, teacher at Washington school. In the absence of Mrs. A. L. Pringle, chairman, Mrs. J. C. Ryan presided.

## Making Survey Of Nurses

KANSAS CITY—As the first step in an effort to relieve the critical shortage of nurses, the Bureau of Labor Statistics is sending questionnaires on salaries, hours, working conditions and job attitudes to registered nurses throughout the Midwest. Odie C. Clark, regional wage analyst of the Bureau of Labor Statistics, U. S. Department of Labor, announced here today.

The survey is being conducted jointly by the Bureau of Labor Statistics and the National Nursing Council in an effort to determine what should be done to make

ONE NIGHT RECENTLY IN HER SCHOOL WORK

SHE HAD SEVERAL MATHEMATICS PROBLEMS

TO GET AND HE HELPED WITH TWO OR THREE

THEN SHE WORKED ALL BY HERSELF FINALLY SHE

RETURNED FOR MORE HELP AND HER METHOD OF APPROACH WAS AMUSING

"THIS ONE" SHE SAID

"IS A DILLY — IN A BAD SORT OF WAY"

I THANK YOU

## Warn Students Of Parking

Students of Smith-Cotton high school are being requested by Joseph Benson, principal, to refrain from parking their automobiles on the west side of Massachusetts avenue, between Broadway and Tenth street.

Many of the students are not aware that there is a city ordinance prohibiting parking in this specified district. Those who do know of the ordinance seem to be under the impression that it is in effect only during the hours between 9 a. m. and 4 p. m., thus permitting those attending school functions to park their cars along the west side of the street.

"Not only that," commented Benson, "we have received numerous complaints from the people residing along that side of the street."

According to the ordinance, a person found guilty of this misdemeanor is liable to a fine ranging from \$5 to \$100.

## IOOF Member For 50 Years

A district meeting of the Odd Fellows and Rebekahs was held at the Bennett Hall in Green Ridge January 28, in honor of the 128th anniversary of the founding of the order in America by Thomas Wilkey. Members from La Monte, Lincoln and Sedalia attended.

An address on the founding of the order was given by A. L. Pringle, of Sedalia. Mrs. Lela McGraw sang a solo, "To Each His Own," and Mrs. Myer, of Sedalia, presented a humorous song and monologue.

The impressive part of the program was the presentation of an I. O. O. F. 50-year pin to J. B. Calvert, of the Veritas Lodge of Lincoln. The presentation was made by William V. Owen, Noble Grand of the Lincoln Lodge. Mr. Calvert has been a member of the order for 54 years, having become a member of the San Bernardino, Cal., order in 1893.

The program was concluded with group singing. Refreshments were served to approximately 140 members and guests.

Since 1918 the U. S. oil industry has drilled 163,000 holes that didn't produce oil.

Eisenhower's Health Sound For His Age

Has Had Three Physical Exams in Last Few Months

By Elton C. Fay  
WASHINGTON, Feb. 5.—(AP)—Ike Eisenhower's doctors and golf cronies think both his health and his game are a good, sound par for his age.

A reporter, mindful of the army chief of staff's recent visits to a couple of hospitals, today consulted some of the men who should know.

These associates and medical advisers to the five-star general summed up their answers this way: Eisenhower has undergone three general physical examinations during the last few months. One was at the Army's Pratt General hospital in Florida where Eisenhower went for treatment of buritis (a not serious but nevertheless irritating condition caused by the growth of a small calcium "button" on a joint.)

Another checkup was conducted when the general went to Walter Reed army hospital here ten days ago for an overnight stay to clear up a "toxic upset" or stomach ache.

Reports Agreed  
The third examination (his friends wanted it just to be sure the other two were correct in findings), was made a few days ago in New York by a civilian physician.

All three reports agreed. Ike is in first class physical condition for a man of 56 years, perhaps even a little better than many others of the same age who are tied down to their desks as Eisenhower is now.

He still has a trace of the buritis. But it was helped by the exercises and deep X-ray treatment prescribed by the Florida hospital.

Tanned and still as husky looking as when he was supreme commander of the invasion forces of Europe, Eisenhower today weighs exactly what he did on the day of his graduation from West Point. That 172 pounds, say the doctors, is ideal for his height and age. Ike was 10 lbs. overweight when he was graduated from the military academy.

Elect Bierut Head of Poland

WARSAW, Feb. 5.—(AP)—Boleslaw Bierut, who had headed the Moscow-born provisional Polish government for 16 months, was elected president of Poland for a seven-year term by the bloc-controlled parliament today.

The only candidate nominated for the presidency, Bierut received 408 votes.

Deputies of Stanislaw Mikolajczyk's Polish Peasant party, which has contended that the election forming the parliament was neither free nor unfettered, cast 25 negative votes. Four votes were invalid and seven deputies were absent.

Bierut, the son of a peasant, 54 years old, unobtrusive and hard working. He was expected to ask the secretary-general of the Socialist party, Josef Cyrankiewicz, to form a new cabinet.

Opposed to Conscription

MIAMI, Fla., Feb. 5.—(AP)—The AFL executive council went on record today as being "unalterably opposed" to military conscription of any kind.

The 15 leaders of the AFL decided unanimously to work against any congressional proposals requiring youths to undergo a period of military training. That would be the first step toward regimentation, the council members said.

The conscription issue came before the council in its survey of what it considers anti-labor bills in congress. Already it has attacked the measure of Senator Ball (R-Minn.) to outlaw the closed shop and other union security provisions of labor contracts, and the Ball-Taft-Smith omnibus bill restricting many labor activities.

George Meany, AFL secretary-treasurer, reported the Federation, founded in 1881, now has 7,505,446 members—a record. The rival CIO claims more than 6,000,000 adherents.

President William Green will testify Feb. 18 on legislation pending in the senate labor committee. John L. Lewis, head of the United Mine Workers, and David Dubinsky, president of the International Ladies Garment Workers Union, will appear later in the month.

Parking Solution

LOS ANGELES, Feb. 5.—(AP)—There's more than one way to find a parking place in jammed Los Angeles.

Many automobile owners have lickered the problem by purchasing commercial licenses the city council was told today. Commercial licenses, costing \$8 instead of \$3 for ordinary plates, entitle the cars to park in loading zones. Parking fees average 50 cents a day.

"They're saving money," Councilman J. Win Austin declared. "It's no poor man's expedient, however, for cars must weigh 3,000 pounds to qualify for a commercial license."

German oil companies are sawing old submarine hulls in half and standing them on end for oil storage tanks.

In Japan

Pvts. Floyd and Lloyd Holman, twin sons of Mr. and Mrs. Roy Holman, Route 5, Sedalia, who are now training at a former Japanese air base located halfway between Tokyo and Yokohama. They enlisted Oct. 1, and were sent to Scott Field, Ill., from there to Fort Sheridan, Ill., and then to Camp Polk, La., before being sent overseas.

Sedalian on Student Ass'n

Miss Mary Sue Monsees, daughter of Mr. and Mrs. S. G. Monsees, route 2, Sedalia, student at the University of Missouri, has been elected to the Student Government Association of the University of Missouri as a freshman councilman.

Four freshmen students, two independents and two affiliates, are chosen each year to represent their class in the student government association on the campus.

The representatives were selected from a final group of twenty freshmen chosen by an S.G.A. screening committee. They will serve for a period of one year beginning January 30, 1947.

Miss Monsees is a member of I.W.O. and Y.W.C.A. and has participated in many other activities on the university campus.

More Soviets to Civilian Life

MOSCOW, Feb. 5.—(AP)—The government today issued its fifth demobilization order since June 23, 1945, singling out several thousand more Russian armed force personnel for return to civilian life in another step toward getting the Soviet Union back to a peacetime basis and furnishing manpower for field and factory.

This latest demobilization looks even larger than the preceding one, announced last October, signed by chairman of the supreme Soviet Nikolai Shvernik, it goes into effect between March and June. It affects older personnel in the ground forces, air force and navy, but no officers.

The order did not specify age groups beyond mentioning "older" troops. Russia, like other nations, is continuing to bring younger age groups into the army as older personnel is demobilized. But the best indications here are that thousands of young Russians of military age have not been called into the army since the war's end, but have gone into factories or specialized jobs in civilian life.

Opposed to Knutson Bill

WASHINGTON, Feb. 5.—(AP)—Rep. Gore (D-Tenn.) sparking democratic opposition to the Knutson 20 per cent "across the board" tax cutting bill, declared today it departs from the principle of taxation according to ability to pay and returns to a tax philosophy "of the middle ages."

House Bill No. 1, authored by Chairman Knutson (R-Minn.) of the house ways and means committee, Gore said, would give five per cent of the tax payers with large incomes a tax cut of \$1,500,000, and the remaining 95 per cent only \$1,940,000,000.

In a speech prepared for delivery in the House, the Tennessee member asserted this tax theory comes "right out of the Andrew Mellon primer of special privilege," and declared:

"It was the economic theory that worked so well that it brought on the panic of 1929 and the utter defeat of the Republican party in 1930 and 1932."

(Mellon was secretary of the treasury in the administrations of Republican Presidents Coolidge and Hoover.)

Knutson's bill would give the 20 per cent cut to large and small incomes alike.

Settle Strike Of Teachers

WEST FRANKFORT, Ill., Feb. 5.—(AP)—Classes were resumed today at West Frankfort high school following settlement of a teachers' strike which had kept approximately 1,000 students idle since Jan. 27.

A committee representing the 37 faculty members agreed last night to accept the offer of the board of education calling for an immediate salary increase of \$100 annually and a similar increase in the event the Illinois legislature passes a pending bill providing additional funds for operation of schools.

The teachers' strike had asked a \$400 increase. Grade school teachers, who were not affected by the strike, met yesterday and voted to ask their board for the same raises granted the high school faculty members, with a further boost of \$300 next spring. The board was asked to act on the proposal by February 14.

U. S. rubber consumption in 1946 was 63 percent synthetic and 37 percent natural.

Almost all the U. S. west coast rice crop is planted by airplane.

GOP Determined to Limit Presidential Terms

(Editor's Note: This is the first of two stories on the Republican drive to limit the presidency to two terms.)

By James Marlow  
WASHINGTON, Feb. 5.—(AP)—The Republicans seem determined to try to limit a president to two terms in the White House.

There's no law now against three or more. But there's a tradition against it, dating back to George Washington who quit after two.

A number of presidents—Jefferson, Jackson, Johnson, Hayes, Taft, Cleveland—favored a limit on presidential terms.

No president ever had more than two until President Roosevelt won a third term in 1940 and a fourth in 1944.

In those critical years the voters gave Mr. Roosevelt a third and fourth term because they trusted his leadership or feared a change.

Cite Tradition  
The Republicans, citing tradition, had screamed against those third and fourth terms and called for a ban on any more than two.

The only way it could be done would be by amending the Constitution to limit the number of terms. The Constitution doesn't set a limit now.

But the Republicans were blocked in Congress where the Democrats kept control until this year. Now the Republicans are in control, and they're doing something about it. Some Democrats are helping them.

Some Democrats joined the Republicans yesterday in approving—in the House Judiciary committee—a proposal which would do this:

Amend the Constitution to limit the president to two terms in the White House. And it doesn't mean two full terms. It means any part of two.

For Example:  
President Truman wasn't elected to his present term. Stepping up from the vice-presidency, he's serving out Mr. Roosevelt's unexpired term.

If he should be elected in 1948 to a full term, that would be considered Mr. Truman's second term. He couldn't run again in 1952 or ever.

This proposed constitutional change may come up for a vote in the full House very shortly.

Real Estate Bill in Senate

JEFFERSON CITY, Feb. 5.—(AP)—A real estate fraud bill drew charges of pressure group tactics in the Missouri Senate yesterday and finally was killed after two hours of wrangling.

Sen. Emery W. Allison (D) of Rolla, sponsor of the measure, said opposition to it had been drummed up by the Missouri Real Estate Association in a campaign of what he called misrepresentation.

On a standing vote to advance the bill, it failed 9-14.

The bill sought to make it impossible for real estate agents to sue on claims for commissions unless they had a written agreement with the persons represented. Allison said it would prevent fraud.

Opponents labeled the bill unnecessary and burdensome. Several said they had received letters from real estate men denouncing the measure.

Heartening Progress Made

WASHINGTON, Feb. 5.—(AP)—President Truman told congress today that the United Nations has made "great progress" in the last year but that world hopes for peace can yet "be betrayed and lost."

"The difficulties and dangers that lie before us are many and serious," Mr. Truman said in a letter transmitting to both the senate and house a report on United Nations activities in the world organization during 1946.

He declared in the report itself that progress made on international control of atomic energy is "heartening," due chiefly to increasing Russian agreement with American proposals for a world control system.

On the other hand, the chief executive described as "disappointingly slow" the work of the military staff committee. That U. N. agency has the task of organizing the forces which the security council is authorized to use against any future aggressor.

Mr. Truman said, however, "there are already signs of greater speed and it is hoped that the pace of the committee's work will continue to accelerate."

Found With Burglar Tools

JONESBORO, Ark., Feb. 5.—(AP)—Three men and a woman were held here today on charges of possession of burglar tools while state police investigated their activities.

Deputy Sheriff C. D. Wilson said they were Leroy Eckles, 26, John Fee, 29, Leonard McGee, 21, and Fee's wife, Patsy, all of Tulsa, Okla.

Wilson said a pistol taken in a burglary Jan. 31, of the store of Sheriff Lloyd Yarbrough at Clarksville was found in possession of the group when they were arrested on the street here late yesterday. He added Eckles related he had purchased the gun, but did not know the name of the seller.

The officer said Eckles admitted having served a sentence for automobile theft in Washington, D. C., and Fee a term in Oklahoma for burglary and grand larceny.

The group said they had come to Jonesboro to visit Mrs. Fee's father, the officer related.

Lawmakers 'Shake Well the Subject of Drinking Liquor'

WASHINGTON, Feb. 5.—(AP)—N. asked to promise, "God helping you," to refrain from drinking all alcoholic beverages, "particularly vodka," a Russian favorite.

Discrimination  
"That's discrimination," snorted one legislator. "But don't mention my name."

Another, equally firm in turning thumbs down on any quotable comment, observed:

"I have both drys and wets in my district. The best I could do under the circumstances is to continue voting dry and drinking wet."

"I'd just as soon sip an atomic cocktail as get mixed up in this," a third veteran lawmaker declared.

But Rep. Rees (R) whose home state of Kansas never cast off prohibition, made his position clear. "My opinion," he said, "is that the whole country would be better off without liquor."

Voters Adopt New Charter

ST. LOUIS, Feb. 5.—(AP)—A new charter providing for a council-manager form of government in place of a mayor and board of aldermen was adopted by voters of suburban University City, 3,667 to 2,305, on the basis of complete unofficial returns in yesterday's special election.

The charter, which required only a simple majority to pass, is to go into effect in April when four councilmen will be elected for three-year terms. They will form the council with three aldermen whose present terms do not expire until 1948.

The elected seven-member council will select a city manager in place of the present elected mayor, Matt C. Fogarty, who supported the measure.

The charter also provides for centralized cash purchasing, initiative referendum and recall, budgeted financing and a civil service merit system.

Communists to Cease Attack

PEIPING, Feb. 5.—(AP)—The Communist commissioner at executive headquarters told the Associated Press tonight that Communist headquarters at Yen'an has ordered its troops to cease attacking the Peiping-Tientsin railroad when the American branch headquarters begins evacuating.

Communist guerrillas long have harassed the railway and frequently have interrupted service for several days at a time by cutting rails. Only a few days ago, the government restored a 100 yard portion the guerrillas had destroyed.

The railway is the communications link with Tientsin and its port, Tangku, from which nearly 2,000 American personnel and dependents at headquarters will sail soon.

Six Buildings in Preston Burned

SPRINGFIELD, Mo., Feb. 5.—(AP)—Six of the ten buildings which comprise the business district of Preston, Mo., were destroyed by fire yesterday, which was well under way before it was discovered.

Volunteer firemen from Hermitage, Cross Timbers, Urbana, and other surrounding communities joined Preston citizens in battling the wind-fanned blaze and managed to save four buildings, including Edison's general store. The postoffice was destroyed.

Preston is north of Springfield, near Highway 65, in Hickory county.

Landis Blames White House Advisers

WASHINGTON, Feb. 5.—(AP)—Republican Rep. Landis (Ind.), opened six weeks of hearings before the house labor committee today by blaming "White House advisers" for last year's "grave strikes."

Landis was first witness before the committee as both houses of congress pitched into labor-management problems.

A new electric typewriter sets up an entire line and prints it in one operation after the operator has had time to correct it.

U. S. rubber consumption in 1946 was 63 percent synthetic and 37 percent natural.

Almost all the U. S. west coast rice crop is planted by airplane.

PERSONALS

Mrs. Ralph Hodges and son, Robert Allen of Indio, Calif., have returned to their home after being called here by the death of her father, A. B. Wild.

Miss Edna Kubli, of Kansas City, who spent the week end in Sedalia with her parents, Mr. and Mrs. Edward F. Kubli, 205 West Tenth street, was accompanied to Kansas City Sunday evening by her two sisters, Joyce and June, who spent Monday with her there. They returned home Tuesday morning.

Two Divorces Granted Today

Two divorces were granted in circuit court today by Judge Dimmitt Hoffman.

A divorce was granted to Virginia J. Coppinger from Anderson B. Coppinger, and the plaintiff restored her maiden name, Virginia J. Payne. The case had been marked "dropped from the docket" Tuesday, and this entry was stricken from the docket this morning when the plaintiff with her attorney John Palmer appeared to ask for the divorce.

Divorce was granted to Helen LeVonn Gayles from Jethro Ward Gayles. The plaintiff was awarded the care and custody of their minor child.

For Repeal of Wagner Act

WASHINGTON, Feb. 5.—(AP)—Outright repeal of the Wagner Labor Relations Act was asked by Rep. Hoffman (R-Mich.) today as the House Labor committee opened hearings on labor bills.

Hoffman told the committee the Wagner Act has not proved the answer to the problem of strikes and labor disputes and unless Congress finds an answer "these disputes may ultimately involve us in civil war."

The Michigan congressman and Rep. Landis (R-Ind.) were first witnesses before the committee of which they are also members.

Landis asked for changes in the Wagner Act, though not its repeal. He blamed "White House advisers" for last year's "grave strikes."

The Truman administration has "played politics" with labor questions, Landis went on, adding:

"The White House has been pro-labor at one time and the other way at another time."

He proposed that federal labor laws apply (1) only to companies whose "productive effort" is in two or more states—as distinguished from sales or purchases, or (2) only to industries essential to public health or safety, like coal and meat-packing.

First Reading on Parimutuel Bill in Texas Legislature

AUSTIN, Texas, Feb. 5.—(AP)—A bill to legalize parimutuel betting on horse racing in Texas, halted by law some years ago after being legalized for a short time, has been given a first reading in the legislature and referred to the committee on state affairs.

Navy Club Meets Thursday

The Navy Club will meet at 8:00 o'clock Thursday night at the Armory.

Elks Auxiliary To Meet

The Ladies Auxiliary to the Elks will hold their regular business meeting tonight at the Elks club at 8 o'clock.

There is fossil evidence that termites existed in their present form 55-million years ago, long before the human race appeared.

Glassblowing was developed in the Third Century, B.C., revolutionizing the methods of glass production.

No. 1 Lawyer

Philip B. Perlman, above, Baltimore attorney, was named solicitor general of the United States. He succeeds J. Howard McGrath of Providence, R. I., who resigned last fall to run successfully for U. S. Senate.

OBITUARIES

Mrs. A. M. Maupin  
Mrs. A. M. Maupin, Los Angeles, Calif., died suddenly January 17 at her home in Los Angeles. The Rev. M. Owen Kellison of Wilshire Christian church officiated at the services held January 20. Burial was in the Englewood cemetery.

She is survived by her husband and one daughter, Mary Elizabeth, both of Los Angeles.

Mr. and Mrs. Maupin formerly lived four miles south of Sedalia for a number of years.

W. A. Phillips

W. A. Phillips, formerly of Versailles, died Tuesday at his home in Los Angeles, Calif.

He is survived by his wife Eva, a daughter Dollie Fay, a son Cecil, all of California; five brothers Marion of Cole Camp, Arthur of Versailles, Thomas of Denver, Colo.; Earl of Kanakake, Ill.; Stanley of Twin Falls, Idaho, and a niece Mrs. O. R. Cox, Sedalia.

Funeral services will be held in Los Angeles Thursday afternoon at 2 o'clock.

Mrs. C. J. Sack

Funeral services for Mrs. Relda Zella Sack of Auburn, Calif., were held at the Green Ridge Presbyterian church last Thursday afternoon with the Rev. J. G. W. Kirschner, pastor of the church officiating.

Mrs. Sack was born in Green Ridge, the daughter of Lot Lee, and the late Mrs. Lee. Surviving are her husband, Charles J. Sack, one daughter, Mrs. Russell Davis, of Auburn, Calif., two brothers, Earl Lee, of Omaha, Neb., and Harry Lee, of Sioux City, Ia.

Music for the service was furnished by Mrs. Roy Ragar, and Mrs. Eldon Brown. Pallbearers were: T. J. Williams, E. H. Boltz, Pete Billings, Charles Upton, Ira Pace, and Carl Johnson.

Burial was in the Green Ridge cemetery.

Mrs. Lewis F. Case

Mrs. Lena E. Case, 73 years old, died Monday morning at 9 o'clock at her home in Redlands, Cal.

She was born September 2, 1873, a daughter of J. C. and Sarah Winkler, of Knob Noster.

Mrs. Case was a member of the first graduating class of the Knob Noster high school in 1891. She taught in the Knob Noster and Clinton grade schools.

She was married to Lewis F. Case. For the past twenty years they have resided in Redlands.

Besides her husband, she is survived by a son, Frederick W. Case, Washington, D. C.; three sisters, Mrs. Harriett Gregg, Santa Barbara, Cal.; Mrs. Mayme Breuckart, Redlands, Cal., and Mrs. Margaret Hockler, Knob Noster, and one brother, Lewis Winkler, Independence. Another sister, Mrs. Frances Gregory, preceded her in death June 18, 1942.

The body will arrive in Knob Noster Saturday morning. Funeral services will be held Sunday afternoon.

Burial will be in the Knob Noster cemetery.

Closed Shop Contract Out

WASHINGTON, Feb. 5.—(AP)—Charles E. Wilson, president of General Motors, today told the senate labor committee he "never will sign" a closed shop contract.

"I wouldn't sign a closed shop agreement," the corporation head declared. "I never will sign one. When it gets around to that they can make a farmer out of me."

The white-haired GM executive expressed his views under questioning by Senator Morse (R-Ore.), who told Wilson:

"The thing you are overlooking is that we have to protect working men from employers who want the right to organize for economic benefit."

The labor committee is conducting hearings on a sheaf of bills designed to iron out labor-management troubles. One of the measures would outlaw closed shop contracts, which require a worker to join a union to get a job.

Rocky Ridge  
CHICAGO, Feb. 5.—(AP)—Lieut. Carl Reil of the state highway police station in suburban Blue Island and two officers stopped their car when they noticed a man piling rocks into his old model auto.

John Hoyt, 55, of Urbana, Ill., explained that the strong winds made driving difficult and his 109 pounds wasn't enough to hold his car steady and keep it on the road. To remedy the situation he decided to put several hundred pounds of rocks into his car.

The officers helped Hoyt load the ballast and then watched him drive away—without swaying at all.

In California

Pvt. Randolph Lewis, son of Mr. and Mrs. R. D. Lewis, 814 North Osage avenue, who recently completed basic training at the AAF Military Training Center, San Antonio, Tex. Pvt. Lewis is now stationed at Hampton Field, Calif.

Bury Capone in Simple Grave

CHICAGO, Feb. 5.—(AP)—Al Capone, who during his gangland days buried friend and enemy alike with all the pomp and ceremony of a Roman holiday, was buried yesterday in a simple, five-minute graveside service at Mt. Olivet cemetery.

The brief ceremony for "Scarface" Al, the nation's No. 1 gangster, was in complete contrast to the funeral services for gangsters in the prohibition era.

Al's mother, Therese; his wife, Mae; his only son, Alfred, and his brothers, Ralph and Matt, stood at the side of the grave during the brief service. As the tent a woman sobbed, "Al... I want to be with Al."

The committal rite was conducted by Msgr. William Gorman, chaplain of the Chicago fire department, whose services were requested by Capone's mother.

No religious mass was allowed for Capone, but he was buried in the family plot in consecrated ground alongside the bodies of his brother, Frank, who was slain by police in 1924, and his father, Gabriel.

Msgr. Gorman said the brief ceremony at the grave was to recognize his (Capone's) penitence and the fact he died fortified by the sacraments of the church—the (Roman Catholic) church never condoned evil, nor the evil in any man's life."

Fewer Eggs to Be Available

KANSAS CITY, Feb. 5.—(AP)—There'll be fewer eggs per capital available this year.

Termohler, chief of the poultry branch, Production and Marketing Administration of the Department of Agriculture.

Addressing the institute of American Poultry Industries here yesterday, Termohler said the number available per person in the country would be 370—five less than last year—after hatching requirements and foreign commitments are met.

He added the number would be reduced if foreign shipments were increased. Current commitments to Great Britain, it was reported at the meeting, are 20,000,000 pounds of dried eggs, equivalent to 2,000,000 cases of 30 dozen each.

A campaign to interest food manufacturers in including powdered eggs in their products to increase the nutritional value was suggested by Dr. G. A. Fitzgerald, Syracuse, N. Y.

Stationed In Washington

Charles E. Lindsey, son of Mrs. Janie Lindsey of 307 South New York, who enlisted in the army January 2, is now stationed at North Fort Lewis, Wash.

Wheat To Heavy Profits

CHICAGO, Feb. 5.—(AP)—Wheat ran into fact heavy profit-taking following its recent advance on the Board of Trade. The bread cereal dropped as much as 2 1/2 cents at one time, but a late rally reduced the loss.

Some selling in wheat was traced to houses with southwestern connections and had been preceded by hedging against purchases of cash grain. Corn was down slightly most of the session.

By oats deliveries were steady. Lard firmed on a higher hog market.

# Meet the Man His Mother Wanted Him to be

By Hal Boyle  
WASHINGTON, (AP)—Well, I've finally met the man my mother wanted me to be—the president of the United States.  
And I want to say right out that he is welcome to the job, and the four-engine airplane that goes with it.  
I will even go Henry Clay one better and say, "I'd rather be wrong than president."  
Why Harry Truman ever traded a nice senatorial office for the White House I don't know. He used to be his own man. He isn't any more. He's a prisoner of the secret service and the American people. He has no more freedom than a queen bee in a honey hive.  
And he has no more real privacy than Irvin S. Cobb's celebrated goldfish in a \$75,000-a-year glass bowl.  
I was one of a half dozen or so palpitating people who met the president the other day after a news conference which had all the earmarks of a radio quiz program. Each reporter was trying to throw him the \$64 question.  
**Some Red Tape**  
To see the president your name must be submitted in advance. You go in through the northwest gate to the White House and a guard scrutinizes your identity card suspiciously. You remember

uneasily that when you were six years old you stole a nickel to buy an ice cream cone. And you feel absolutely certain the guard knows you did, too.  
You enter the west wing and a presidential aide groups the newcomers together in an ante chamber off the lobby. You feel exactly like John Wilkes Booth as a couple of husky secret service men move around watchfully, occasionally shooting keen glances at you. It gives you a strange feeling of guilt.  
At the conference hour the door to the executive office opened and the White House correspondents trooped in on the double quick. As soon as they were grouped around the president's desk where he sat with his advisers, we followed in.  
**Atmosphere Pleasant**  
Mr. Truman stood and read a brief news announcement and then asked if there were any questions. The atmosphere was pleasant and easy. Whatever the political views of their papers, most correspondents have come to have a personal liking for the president. He is always genial and on trips around the country he is very considerate of their welfare.  
Covering one of his conferences is no easy task. The questions were popped up quickly and Mr.

Truman batted back the answers with hair trigger readiness, so swiftly it was hard to take full notes. He has overcome the initial self-consciousness with which he undertook his immense task. He is completely self-assured now. He spoke with prompt decisiveness, smiling almost continuously and exchanging banter with the newsmen.  
When the senior press association man present signalled the end of the conference with the traditional "Thank you, Mr. President," half a dozen newsmen wheeled for the door on the dead-run, bowling me against the wall like an overweight tenpin.  
**In Perfect Health**  
Tony Vaccaro, the Associated Press White House correspondent, then led me up and introduced me to the president and Charlie Ross, his press secretary. We shook hands. The president was wearing a red necktie and a gray suit. He will be sixty-three years old soon, but he looks barely 50. He appears in perfect health and so full of energy he can hardly stand still.  
I mentioned that my father years ago ran a meat store in Independence, Mo., the president's home town, but Mr. Truman did not remember him. The Trumans traded at another shop. This I

don't quite understand as dad always insisted he had the best steaks at the lowest prices in town. Apparently Mrs. Truman was not informed of this good news.  
**Hurried Out**  
We chatted a moment or two more. White House etiquette forbids me to disclose all the state secrets I learned—and then the man behind me, anxious to meet the president, too, put his elbow through three of my ribs, and my rendezvous with history was over.  
I paused at the door to look back. Two big secret service men immediately flanked me. I looked down and realized I had violated the injunction given me by a friendly reporter: "Don't put your hands in your pocket—the secret service boys don't like it."  
So I jerked out my hands, turned them over nervously to show they were empty, and walked out with the secret service still giving me the fish eye. My knuckles felt big as basketballs.  
But I still felt I was better off than Mr. Truman. Because when he leaves the White House those gimlet-eyed guards go right with him. I wonder if they make him feel guilty, too, and whether he ever unconsciously pulls his hands out of his pockets to show they aren't loaded?

## All That's Left of a Queen of the Sea

What is apparently a junkyard, above, is actually what's left of the famous French steamship Normandie, onetime queen of the transatlantic luxury liners. Ship is being scrapped at Newark, N. J.

More bituminous coal is moved by American railroads than any other type of freight. Andrew Jackson was the first American president to ride on a steam railroad. A modern oil derrick is as much as 136 feet high and weighs as much as 283 tons.

## Relief At Last For Your Cough

Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes.  
Creomulsion blends beechwood creosote by special process with other time tested medicines for coughs. It contains no narcotics.  
No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough, permitting rest and sleep, or you are to have your money back. (Adv.)

**"UNBLOCK" your DIGESTIVE TRACT**  
And Stop Dosing Your Stomach With Soda and Alkalizers

Don't expect to get real relief from headache, sour stomach, gas and bad breath by taking soda and other alkalizers if the true cause of your trouble is constipation.

In this case, your real trouble is not in the stomach at all. But in the intestinal tract where 80% of your food is digested. And when the lower part gets blocked food may fail to digest properly.

What you want for real relief is something to "unblock" your lower intestinal tract. Something to clean it out effectively—help Nature get back on her feet.

Get Carter's Pills right now. Take as directed. They gently and effectively "unblock" your digestive tract. This permits all 5 of Nature's own digestive juices to mix better with your food. You get genuine relief from indigestion so you can feel really good again.

Buy Carter's Pills today. "Unblock" your intestinal tract for real relief from indigestion.

## Teachers' Pay Hike Urged

House Democrats For Increase In State 'Gas' Tax

JEFFERSON CITY, Feb. 5—(P)—Minority Democrats in the Missouri House of Representatives went on record Tuesday night for an increased state gasoline tax and higher teachers' salaries, two of the most controversial subjects before the 1947 legislature.

The recommendations were part of a 14-point statement on policy adopted by the 54 Democrats in the house at a special caucus.

They also recommended construction of a new state office building in Jefferson City, passage of a public housing act and slum clearance, higher welfare appropriations and establishment of a four-year medical school as part of a statewide rural hospital program.

The minority group criticized the last legislature for failing to authorize a survey of Missouri roads because, they said, "Thousands of farmers are marooned in the mud for months each year."

"However," they added "it is evident that additional revenue must be raised if farm roads are to be constructed on a scale commensurate with the need. The situation calls for positive action and not interminable debate. The farmer is entitled to roads immediately. We urge an increase in the gasoline tax sufficient to take rural Missouri out of the mud."

The present tax is two cents a gallon, lowest in the nation.

**Danger To School System**

Turning to school problems, the Democrats said the state's public school system "is in serious danger of immediate collapse" because teachers' salaries have not kept

## DOCTOR'S DISCOVERY FOR BACKACHES DUE TO KIDNEYS

● If excess acidity of your urine makes your back ache so you groan... so you get up 3 or 4 times a night to pass water, now be of good cheer.

Three generations ago a famous doctor noticed that hundreds of his patients had this backache. He compounded a medicine made of 16 herbs, roots, vegetables, balsams—truly Nature's own way to relief. Millions have used it. The medicine is Dr. Kilmer's Swamp-Root. Instantly you take it, it starts to work flushing out those excess acids that may cause your backache... increasing the flow of urine to help ease that burning sensation when you pass water... and that bladder irritation that makes you get up nights. Caution: take as directed. You'll say it's marvelous.

For free trial supply, send to Dept. V, Kilmer & Co., Inc., Box 1255, Stamford, Conn.—get full-sized bottle of Swamp-Root today at your drugstore.

## Six Teen-agers Die in Car-Train Crash

Six youths, ranging in age from 16 to 19 years, died when this car, in which they were riding, was struck on the main street of Seneca, Mo., by a fast St. Louis-bound passenger train. Investigators believe a freight train waiting on a nearby siding distracted the youths' attention from the approaching passenger train. (NEA TELEPHOTO)

## Britain Signs Peace Treaties

Foreign Minister Ernest Bevin of Great Britain is shown in London as he signed peace treaties with Italy, Hungary, Bulgaria, Rumania and Finland. Russia and the United States already have signed the treaties. (NEA RADIOPHOTO)

## Defeat Ban on Fireworks Bill

JEFFERSON CITY, Mo., Feb. 5—(P)—The Missouri house of Representatives changed every section of a bill originally intended to bar sale or use of fireworks in the state then defeated it after an hour's plastic surgery Tuesday.

Introduced by Rep. John N. Morton (R) of Greene county, the bill was greeted with snickers then opponents besieged it with amendments.

Most of them were adopted, prompting the speaker to declare it "the most complete annihilation of a bill with amendments I have ever seen."

The revamped bill would have: Prohibited the sale or use of fireworks, exclusive of cap guns and firecrackers, except that fathers, their sons, daughters and grandchildren could fire them off on the Fourth of July or any other national holiday.

Before the house killed the bill, Rep. E. B. Hinson (D) of New Madrid county got stench bombs included but Rep. Arthur D. Smith (R) of Jasper county failed in his attempt to insert bubble gum.

## Ten Years To Spy Ring Member

NEW YORK, Feb. 5—(P)—Theodore Erdman Lau, 44-year-old paymaster of the Kurt Frederick Ludwig Nazi spy ring which operated in the United States before Pearl Harbor, was sentenced to 10 years in prison by Federal Judge Edward A. Conger Tuesday.

The 44-year-old German-born Argentine citizen pleaded guilty to the espionage charge yesterday. His attorney argued in vain today that his client conducted legitimate retail hosiery businesses in New York City, Argentina and Canada.

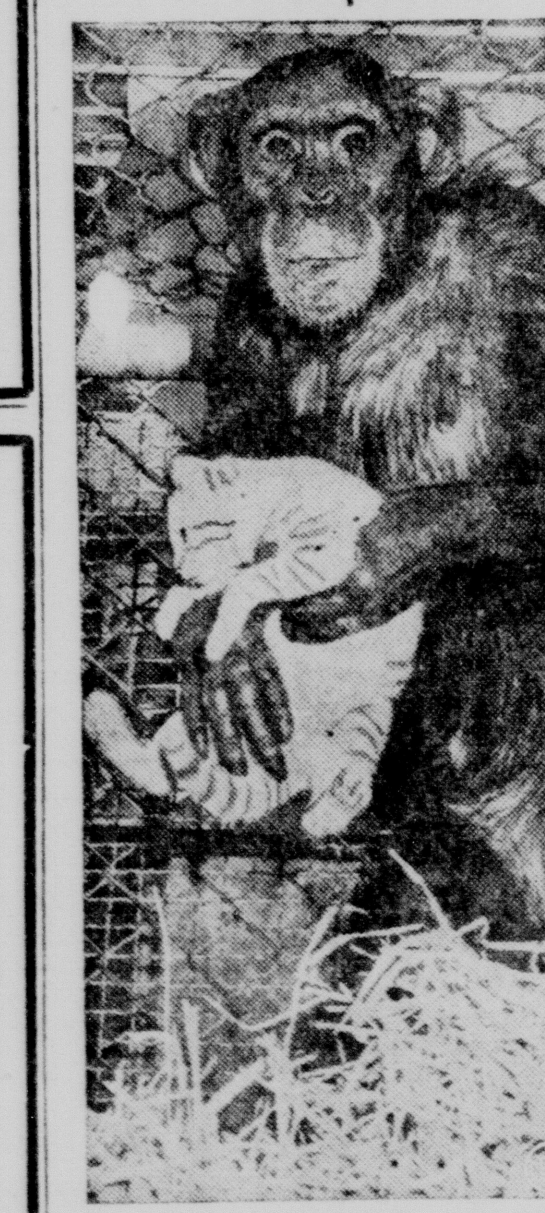

Eight members of the ring smashed by the FBI in 1941 have been sentenced to terms aggregating 142 years.

Motorists who leave keys in the ignition switch actually help make irresponsible children into juvenile delinquents says the FBI.

Heavy bombing planes are built to withstand temperature changes of 200 degrees F.—from the 130-degree heat of India's runways to the 70-below of the upper air.

A farm magazine survey disclosed shortly after World War II that nearly half the nation's art students were from farmer families.

## Kitnaper

Harriet, a chimpanzee at Ft. Worth, Tex., zoo, likes cats and when young Felix romped past her cage, Harriet grabbed him. Crochety old chimp constantly mothers the cat, fixing a bed of straw for him and crooning tenderly over him. Only a banana will tempt her to let him go.

## High Level on Factory Jobs

KANSAS CITY, Feb. 5—(P)—Missouri factory employment reached a total of 347,000 in December, the highest level since the end of the war in August, 1945, the bureau of labor statistics, U. S. Department of Labor, reported here Tuesday.

This represented an increase of 42,000 workers or 14 percent over the number employed in December 1945.

All industrial groups—except tobacco manufacturing with a loss of 11.1 percent—showed gains in employment as compared with a year earlier. The increases ranged from 3.4 percent for food industries to 4.4 percent for stone, clay and glass products manufacturers.

Leather manufacturing showed the largest numerical increase with 7,600 more employees at the end of 1946.

Foreign Minister Ernest Bevin of Great Britain is shown in London as he signed peace treaties with Italy, Hungary, Bulgaria, Rumania and Finland. Russia and the United States already have signed the treaties. (NEA RADIOPHOTO)

## Looking Backward Forty Years Ago

August Helfert has succeeded Dr. Ernest Heller as manager of the Delmar hotel at Main street and Lamine avenue.

The division engineer of the Missouri Pacific and a force of men have completed laying the spur track for the Sedalia Water company near the company's plant south of Sedalia at Flat Creek.

Judge D. E. Kennedy has been appointed as chairman of a committee of the Knights of Columbus to investigate relative to a site for a building, or securing of a permanent K. of C. home, or an appropriate place to be used permanently as a meeting place.

The mercury registered six degrees above zero this morning here.

Members of the Missouri State Fair board are in session here and among other matters taken up was the proposal of the organizing of a new racing circuit.

A New York corn farmer rigged up an exploding scarecrow—every three minutes a carbide gas blast crowd-proof within a 10-acre radius went off.

## IS EPILEPSY INHERITED? WHAT CAUSES IT?

A booklet containing the opinions of famous doctors on this interesting subject will be sent FREE, while they last, to any reader writing to the Educational Division, 537 Fifth Ave., New York, N. Y., Dept. B-882

## Snap Up Cars And Typewriters

KANSAS CITY, Feb. 5—(P)—More than 1,000 war veterans snapped up typewriters, staff cars and jeeps at opening Tuesday of a 12 day sale of surplus war property at the regional offices of the war assets administration.

With buyers on a "first come, first served basis," the veterans began arriving yesterday from outstate and surrounding states to obtain an early priority number.

By 6 p. m. virtually all of the 918 typewriters had been taken at prices ranging from \$13 to \$46.16.

Twenty-four automobiles, 24 trucks and 24 jeeps were quickly taken at prices up to \$800.

A popular item was 26 fractional horsepower electric motors.

Plenty of office furniture—but that was about all—was left for the sale which will continue daily, except Saturdays and Sunday, until Feb. 19.

# 40-Cent Sugar, 15-Cent Candy Bars; That is What Experts See if the Controls End

By S. BURTON HEATH  
NEA Staff Correspondent  
NEW YORK, (NEA)—Forty-cent-a-pound sugar for your coffee, cereals and home cooking—15-cent candy bars—\$2-a-pound chocolates in the plainest boxes—and a greater scarcity, even at such prices, than at any time during the war—  
That is what experts say to expect if rationing and price controls should be taken off sugar at this time, as there is danger they may be.  
The 40-cent-a-pound figure for household sugar is a guess. No body really knows how high the sweet stuff will go if the brakes are taken off. But it is the guess of James Marshall, head of the Department of Agriculture's sugar branch, and of Earl B. Wilson of San Francisco, president of the California & Hawaii Sugar Refining Co. and Marshall's wartime predecessor.  
Speaking individually, from opposite sides of the continent, each answered a question as to how high sugar would go, if it were turned loose now, with "40 cents

**To an all-time peak of 40¢?**  
From 1920's high of 26¢  
And today's price of 8¢  
Photo-diagram above shows what experts say will happen to the sugar the refinery worker is pouring into paper bags if controls are taken off. Prices are per pound of refined sugar. Failures followed collapse after 1920's high.

—or more." Other insiders say that this is not an unreasonable estimate.  
The sugar situation is unique because everybody concerned—growers, processors, importers, dealers, industrial users and householders—all want price

## Dog Day in the News

Sonny Wells, left, 21-year-old ex-GI, gets an affectionate kiss from the dog he rescued from the face of Stone Mountain, Ga. Sonny, repaying a debt to dogdom owed since an old hound saved him from drowning, nearly lost his life when he slipped on the smooth face of the mountain. At right, Patsy Ruth Fergus, 16, is shown with her seeing-eye dog, "Lucky," which Los Angeles, Calif., school authorities say she must give up or not attend classes. "Lucky" was described as a "potential hazard" to other students. (NEA TELEPHOTO)

controls and rationing maintained for a while longer.  
**Four Grave Dangers**  
Yet there are these real dangers that both may be taken off too soon:  
1. Rep. Price H. Preston, Georgia Democrat, has introduced a bill to abolish rationing immediately.  
2. Whatever happens to this bill, the government's power to ration will die automatically on March 31, when the Second War Powers Act expires, unless Congress acts affirmatively to extend that authority.  
3. Federal Judge Letts, in Washington, has ordered the OPA to stop rationing to industrial users on the "historical use" formula. The ruling is effective immediately except as it has been stayed by the government's appeal. Carl Auerbach, chief OPA counsel, says the ruling threatens the entire rationing program.  
4. The government's authority to control prices dies June 30, with the OPA, unless Congress takes action to let the Department of Agriculture or some other agency take over.  
The seriousness of the situation

appeared when speakers representing virtually every phase of the sugar business except the householder unanimously told a Congressional sub-committee that controls should be maintained for the time being.  
The only witness who leaned at all toward quick release of sugar controls was John C. Gardner, president of the New York Coffee and Sugar Exchange. He thinks that the lack of dollar-exchange abroad would prevent a disastrous auction for the world supply. He would like to have the exchange begin trading this spring in 1948 futures. But he thought rationing and price control should be continued through 1947.  
The danger of 40-cent sugar—and a skyrocketing pricing of all items in which sugar is a major ingredient—arises from the very real shortage in supply that still exists.  
The danger from Judge Letts' ruling is this:  
In 1946 industrial food processors used 2,500,000 short tons of the 5,400,000 available for American civilians. Of this 535,000 tons went to beverage and syrup makers, 500,000 to bakeries, 408,000 to candy-makers, 114,000 to ice cream, and the rest was split among many types of use.  
Householders were allowed 1,175,000 tons for able use plus 785,000 tons for canning, a total of 1,960,000 tons—less than four-fifths as much as the industrial allowance.  
Industrial sugar was allocated on the only workable basis the administrators could devise—60 per cent of the amount used by each in 1941, with more or less arbitrary allowances to newcomers in the field.  
Judge Letts' decision was in a suit brought by one of these newcomers, who complained that he was discriminated against and that newcomers were injured by the "historical use" yardstick.  
**If It's Wide Open—**  
But even the old-established firms have been getting only a fraction of the sugar they used in 1941—most of them 60 per cent. Unless the government could find some workable allocation method to replace "historical use," industrial users would be left free to go into the market and buy whatever sugar they could find, ahead of householders.  
Under a wide open system, even if industrial users confined themselves to the 1941 basis, the 1,700,000 additional tons they would be free to buy—and which experts say they could get ahead of householders because of their preferred position as big purchasers—would use up all but 260,000 of the 1,960 tons available for home use.  
The remainder, split up, would allow less than four pounds a person for domestic consumers as contrasted with the 25 pounds available in 1946 for eating and canning.  
All of this is theoretical and based upon 1946 figures. It is, however, the logical basis for fears of insiders—including the processors themselves—that the sugar situation will get completely out of hand if some way of controlling allocations to industrial users is not found, provided Judge Letts' ruling is upheld.  
The industrial users realize that in such a situation they would have to pay prohibitive prices, as they bid against one another and all of them against householders. Everybody realizes that even if a pretense of price control were retained with industrial users taking all they wanted and could find the small residue that was left for homes—would go into the black market and into the price stratosphere.

**Railroads Ask For More Steel**  
A serious nation-wide business crisis looms unless steel manufacturer change their policies and allot a sufficient amount of steel to the railroads and car builders, Paul J. Neff, Missouri Pacific Lines president, said in letters sent today to the heads of the country's principal steel companies.  
Freight cars that did extra heavy duty all through the war are being retired faster than new ones are being built, Neff said, and cars that could be repaired and made serviceable to move wheat, flour and commodities requiring high class cars are not being made available because of lack of steel to repair them. Neff declared there are not enough cars to move the old wheat crop from interior elevators and that on all parts of the system the demand for freight cars exceeded the supply. Unless immediate steps are taken to give the railroad industry its requirements the wheat farmers face a catastrophe in 1947, he said.

## Kroger Store Reopens on February 11

### Entire Place Being Remodeled And Modernized

The Kroger Grocery and Baking Company, Sixth street and Ohio avenue, will reopen Tuesday, February 11, after being closed for about two weeks, while the interior was being redecorated.  
During the remodeling, in which the store was completely changed, they removed all of the old fixtures and equipment and installed new display counters, tested by a Kroger unit, in the store. These counters are built so they will give each article all the show possible. A produce counter, with a mirrored backing, has been set up on the north side of the building.  
The old meat counter has been replaced by a more modern and sanitary case. Two separate storage rooms for the produce and meat have been set aside to allow maximum freshness for all goods sold.  
Open face dairy case, which will also give adequate refrigeration for goods on display will be placed next to the meat counter. It is constructed so that it will be more convenient for the buyer to choose his food.  
**Line of Sundries**  
A sundry line, such as tooth pastes and shaving creams will be obtainable also.  
Check stands will be situated in the front of the building, in a position that will allow easier and wider passage for the buyers. The door, which is now in the center of the building will be taken out and the new entrance will be on the corner of the establishment.  
The store has also been painted and new heating units have been

Talks Given  
On Wildlife  
And Fishing

Officers Elected  
By Pettis County  
Group Tuesday

The Pettis County Chapter of the Conservation Federation interested in wildlife and fish met in the Assembly Hall at the Court house Tuesday night to elect officers and to induce the sportsmen of Pettis county to become more active in conservation and its enforcement. About 100 of the county's hunters and fishermen were present to hear Vernon Bennett, assistant chief of the Conservation Commission of Missouri, and chief of the enforcement division, speak on those vital subjects.

Officers Elected

The officers elected during the meeting were: Dell Ilmberger, president; Judge J. V. Kesterson, vice president; Maurice Griffin, treasurer and R. M. Ryckman, secretary.

Two committee chairmen were also appointed. They are: Frank Brosch, chairman of the Fishing committee, and O. L. Leslie, chairman of the Wildlife committee.

William Steusse, local agent for Pettis and Cooper counties, introduced M. K. Chapman, area supervisor; Clayton Allen, Marshall agent, Ben N. Smith, president of the Rod and Gun club of Booneville and George Esser, secretary of the Booneville Rod and Gun

club. Mr. Steusse also introduced Bennett.

Work In Union

Bennett stated that the Conservation Federation came into being before the Conservation Commission and that the Federation supported the Commission's amendment. The two conservation organizations work in union, Mr. Bennett stated.

The Conservation Commission magazine is sent free to those who wish it, though the number of subscribers are limited for only 26,000 are printed.

The biggest problem facing the conservation organizations is the increase in hunters and fishermen. Figures show that in 1941, 393,790 permits were issued; in 1942, 401,000 were issued; in 1943, a decline found only 353,000 hunting and fishing permits sold; 1944 a small increase brought the number up to 379,000; in 1945 the figure rose to 447,000 and in 1946 it hit an all time high of 540,000.

He stated that during the war, some persons said the decline in permits should be evidence of a rest for the game. If the figures are true, Bennett said, he doubted if there was a rest. The shortage of meat probably found hunters bagging their limit every day, thus showing that there was no rest whatsoever during the war.

Convictions of Violators

Most law enforcement officers predicted a crime wave after the war. The end of the war found not only a crime wave but an utter disregard for conservation laws. The following figures show that in 1945, 1,609 arrests were made for breaking conservation laws. Out of that number, 93.6 per cent were convicted. Those arrested constituted 1.9 of all the people checked. In 1946, 2,550 were arrested for the same charges, and 97.6 per cent were convicted. This figure made the 1.9 per cent jump almost one per cent of those checked.

The percent of convictions, he went on to say, shows that the income are not often arrested by the agents. He also brought out the fact that the agent received no money for these arrests and that they helped his record in no great way.

The largest amount of arrests were for having no permit. These persons came from all walks of life, and were not restricted to the ones who could not afford a license.

Example On Quail

Bennett used an example of quail season to stress the need for a limit. He said an estimated five or six million quail now populate Missouri. With the increasing number of hunters going into the field, these quail would soon become nil, if a limit were not placed on them. Sooner or later an even tighter limit must be placed on these birds.

He urged the people and the local agents to get together on the conservation matter. With this plea he concluded his talk.

Dell Ilmberger then took the floor and told of stocking the ponds, lakes, and streams. He told of the past work done along this line.

He stated that if this county obtained "fingerlings" from the commission, a representative of the local chapter must ride in the truck and sign for the fish allotted.

The business meeting was then concluded and movies were shown by Otis Thorburn, field service agent.

S-C Defeats  
Warrensburg

The Smith Cottor Tigers defeated the Warrensburg public high school Tuesday night by a score of 54 to 16 at the Warrensburg high school.

The Sedalia boys as well as their opponent got off to a slow start, but after a few practice shots they found the range and there was no stopping their scoring onslaught.

Thomas and Miller tied for high point honors with sixteen points each. Every man that played had opportunities to score for his team, though several failed to make any baskets.

During the first quarter, Sedalia made only six points and Warrensburg two. The second quarter the Sedalia boys went wild and gained sixteen points, while Warrensburg trailed with four earned. Third stanza it was fifteen points for Sedalia and six for Warrensburg. To end it off the last quarter Sedalia made fifteen and Warrensburg four.

The Sedalia "P" team lost by one point in the game that preceded the "A" game.

The box score:

SEDALIA	FG	FT	F Pts.

Schwarz and  
Becker Beat  
The Browns

'Wee Willie' Davis  
A Real Wrestling  
Showman, a Winner

It was "body slam" night at the wrestling matches Tuesday night and a night filled with more thrills than have been seen in the local ring in weeks. Furthermore Ray Schwarz, Brooklyn, N. Y., and George Becker, Oakland, California, gave the two Browns a great lesson in team match wrestling by beating them — but good.

Kamaroff is Beaten

"Wee Willie" Davis, movie-wrestling star of Hollywood, California, had a rough go against Ivan Kamaroff of Columbus, O., but with his six foot, seven inch advantage he overpowered Kamaroff in two falls.

Plenty of Action

In the Australian team match, more action was seen in the ring than has been seen in a team match here in any number of months. From the tap of the bell for the opening fall period until the final tap of the canvas for the winner of the third fall period, the fans were kept in the aisles and standing in their seats.

Fifteen minutes passed in the first fall period filled in with action like never has been seen in a team match before. Orville Brown of Wallace, Kas., mid-west champion and his teammate "Bad Boy" Brown of Polo, Mo., won. Orville Brown, after "Bad Boy" had worked Becker over, succeeded in applying not one but

several back slamming body-slams to the canvas to win.

Browns Worked Over

Schwarz and Becker worked Brown and Brown over in the second period. After Becker had dropped Brown any number of times, Schwarz slipped into the ring, relieving his mate and using flying tackles summed up into slams, he pinned his rival to the canvas in 12 minutes.

That third fall period was something. When "Bad Boy" slipped into the ring to help Orville, Becker also took into the ring and Schwarz and Becker grabbed a man each and raced across the canvas butting the Brown heads together. Then everything happened — ending with Becker and Schwarz taking turns with body slams to the champion and Schwarz getting the honor of pinning him to the canvas. It took ten minutes.

Davis and Kamaroff went 32 minutes and 15 seconds before Davis won the first fall with terrific slams to the ring floor. Using the same tactics he won the second fall in 5 minutes and 53 seconds, just short of the time limit.

"The fans may have liked the team match, but I didn't," Orville Brown said when it was over, "and as far as I'm concerned that's all for me." "Bad Boy" supported the remark with: "Well if you won't, neither will I."

Production of asphalt shingles and roll roofing in the United States has doubled since 1939.

Trophy is Won  
By Sacred Heart

Sacred Heart's "Freshman-Sophomore" basketball team won a second place trophy at the Freshman-Sophomore tournament in Lincoln Saturday night. The girls volleyball team also won a sportsmanship award.

In the first game of the tourney, Sacred Heart defeated Cole Camp by a score of 42 to 16. In the second game played Warsaw suffered defeat at their hands to the tune of 32 to 14. In the third game they were defeated by the strong Green Ridge team, the score being 39 to 26.

These games were played Thursday, Friday and Saturday, losing on Saturday night only.

C. C. Hubbard Tigers  
Play Thursday Night

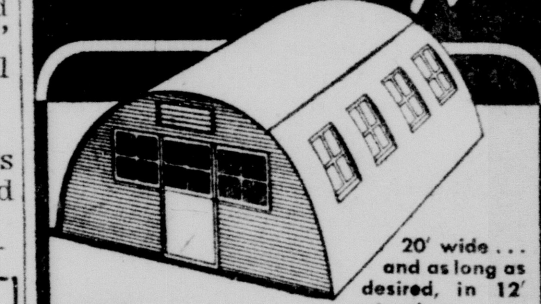

Thursday night one of the best Negro quintets in the state, that of the Springfield Lincoln high school, will come to Sedalia to meet the C. C. Hubbard Tigers on the local gym. The game will start at 8 o'clock.

Coach Broadus will use new tactics entirely in this game, having spent considerable time in the past few days working the team over.

A girl's preliminary game will start at 7 o'clock.

Most living tissue is composed of carbon, oxygen, hydrogen and nitrogen with only small admixtures of other elements.

By Gayle Talbot  
For Hugh Fullerton, Jr.

NEW YORK, Feb. 5.—(P)—Ted Williams and the Boston Red Sox are over only the first hump with Ted's signing of that king size contract. A tougher one awaits them a little further on, when the great star of the American League champs begins running into the "Boudreau shift" day after day. At least, it is generally assumed in baseball circles that most, if not all, rival managers will try the unorthodox defensive line-up against Theodore the coming season.

"They're silly if they don't use it," comments a long-time National League pilot, "especially in view of the way the Cards hamstrung him in the world series. Teddie doesn't like it. As a steady diet it might get him down, bad." Partly because of the conjecture about Ted, any rival American Leaguer will bet you a hat the Sox do not get away winning the way they did last season (they won 21 of their first 24), or even approach that dizzy pace.

Community Project

The debate over whether Frank Parker or Ted Schroeder should have been picked to play in the Davis Cup matches against Australia continues to crop up in the local gazettes. This writer, who was there, feel impelled to clear up a point or two. One is that all the members of the cup squad, excepting Parker, chose Schroeder to play the second singles. They told Capt. Walter Pate so in meeting and he concurred. Actually, Frankie lost his chance of playing the second singles when he declined to compete in the Victorian championships a fortnight or so before the cup tie.

Parker Had His Chance

A second point is that Parker could have played in the Davis Cup if he had wanted to—in doubles—though that honor admittedly is not so esteemed as playing out there all by one's self. Frankie was asked by Pate—after Schroeder had been picked for singles—if he would play the doubles with Gardner Mulloy, and he said, "No, I'm a singles player." It was a tough deal for Mulloy. He had tried hard for a doubles assignment, and he and Parker had looked just about as good as Schroeder and Kramer in practice matches.

## Hear Report on Rural Library

Mrs. George Ray was hostess at the January meeting of the Eldorado Extension club, with ten members, and two visitors present. The guests were Mrs. Ruth Windsor, and Mrs. Charles Pace. A covered dish luncheon was served at the noon hour.

The business meeting was opened with roll call, which was answered with, "A convenience I hope to add to my home this year." The devotionals were led by Mrs. Guy Ray. The president, Mrs. F. D. Wolfe, gave a report on the council meeting, and distributed the new 1947 yearbooks. Mrs. Sid Lusk gave a report on the Rural Library, and health letters were read by Mrs. James Pace, Mrs. Guy Ray, and Mrs. Kenneth Ray. The club voted to donate five dollars to the March of Dimes.

The meeting closed with ensemble singing, and the benediction.

Coal, oil and natural gas are composed largely of carbon and hydrogen.

## To Attend American University

Professor Charles W. McKenzie, head of the department of political science at Westminster college, Fulton, has announced that (left to right) William H. Angle, Louisiana, John Opel, Jefferson City, and Glenn F. Anderson, Jr., St. Joseph, would be the Westminster representative to the American university at Washington, D. C., for the semester February-June. The Washington semester, conducted by the school of social science and public affairs, located near the White House and Department of State, establishes a new pattern of cooperation among institutions, a new method of utilizing the nation's capital to enrich the experiences of students, and a departure in independent honors work. Other institutions participating are: Oberlin college, Allegheny college, Wooster college, Hiram college and the American university.

## Mickey McBride

### He Hustled Himself Into Easy Street

CLEVELAND —(NEA)— It's a long way from the Chicago stockyards district to Cleveland's exclusive Rocky River Drive section. But Arthur B. (Mickey) McBride made the jump look relatively easy.

McBride literally hustled his way from poverty to wealth. He got his first stake as a circulation hustler, and he has been a real hustler ever since.

"Mickey," the son of an Irish immigrant, quit his slum-feder grammar school in the fourth grade to concentrate on a newsboy career he had started at the age of seven.

He wasn't exactly a newspaper salesman. He let the less-imaginative kids peddle papers in the routine way. What "Mickey" did was trade a paper (which cost him half a cent) for the street car transfer of anyone who didn't need it, then sell the transfer for a bigger profit than he could make on a single paper.

The system paid off. Before long McBride had graduated to the circulation departments of various Chicago newspapers, where he slugged it out with the opposition in accepted no-holds-barred stockyard style. And at 23 he went to Cleveland as a \$10,000-a-year circulation chief, first on the Leader and later on the News.

But McBride had hardly started. He became a real estate speculation genius with operations extending to Florida. Then he entered the taxicab field in Cleveland, buying a 51 per cent inter-

## And Now He Has Nine

Victor Wrate, of Mt. Clemens, Mich., puffs a celebratory cigar and grins as he thinks of Mrs. Wrate and their second set of twins, born 367 days after the 1-year-old twins, Beatrice and Catherine, he holds. With him are their other children, left to right, Constance, 7; Victor, 15; Caroline, 4; Patricia, 12; and Douglas, 11.

New York to be equipped with radios, and gave the customers more for their money than they had ever gotten before.

He also gave his competitors more competition than they could handle. After years of intermittent violence McBride emerged as Cleveland's undisputed taxicab king.

But he hadn't begun to be satisfied.

"Mickey" next became identified with Teleflash, a race news service which supplied restaurants, beer parlors, and other establishments with horse racing results—this while publisher M. L. "Moe" Annenberg, whom McBride had known in Chicago, was building up his own tremendous racing news empire, Nationwide News Service. And when Annenberg abandoned his service in December, 1939, upon receiving a prison sentence for income tax evasion, McBride was charged by the federal government with conspiracy to take over operation of the \$2,500,000-a-year business.

The government indicted "Mickey and his associates on the charge that his new syndicate, called Continental Press Service, violated lottery laws. But the indictment was dismissed by a federal judge.

Encouraged by the dollars-and-cents success of his race news venture, "Mickey" looked around for other sports fields to conquer, and so he turned to professional football.

Preliminary investigation convinced him it was a hard way to make money (especially in Cleveland where the Rams had been in the red for years). But McBride took one of the franchises in the as-yet-unorganized All-America Conference. As he ex-

plained at the time: "I've never had any easy ones."

"Mickey" poured \$300,000 into his new club before a nickel came out, getting the best coach, Paul Brown, and the best players available, lining up a musical director and an all-girl band which gave his Cleveland Browns the gaudiest half-time show pro football has ever known. Gridiron-wise rivals were sure he was sending good money after bad. McBride knew better. When the 1946 campaign closed, this modern Midas had a professional football champion—and a profit.

Now he's looking for new, and tougher, ventures.

## Braved Fire to Save a Child

Charles Garrett, 516 Western avenue, Lynn, Mass., a former Sedalian, braved fire and smoke to save the life of three-year old Robert Dunn, 7 Farrell street, Lynn, Mass., Sedalians have learned.

The boy was trapped in the living room of his home when fire of undetermined origin broke out in the kitchen. Garrett, unable to break through the wall of fire and smoke in the kitchen, ran to the front and smashed a window in the living room, and then carried the burned and unconscious child to the window, where a fellow worker took him to the Lynn General hospital. The boy was treated for first and second degree burns on the arm, hands and face. His condition is serious, but not critical.

Mr. Garrett is a son of Mr. and Mrs. Wilbur Garrett, 1415 South Moniteau avenue.

## Family Night for Van Natta PTA

The Van Natta P.T.A. met January 24, at the school. It was family night. Piano solos, singing, and recitations were presented. A collection was also made for the March of Dimes.

Mrs. George Gorrell read the minutes of the last meeting. Mrs. Earl Johnson and Miss Blanche Anderson were the acting hostesses in the absence of the refreshment committee. Cookies and cocoa were served.

Bacteria which multiply by dividing into two never grow old. Each bacterium formed is new.

Without bacteria, human beings would starve, for bacteria are necessary for the growth of plants.

The Doctor Says

Modern Treatment Saves Cholera Victims  
By William A. O'Brien, M. D.  
Written for NEA Service

Penicillin, sulfadiazine, and blood plasma were effective in saving the lives of an entire group of cholera patients in India, according to Dr. J. M. Amberson of the United States Navy.

Three hundred and seventy-two cholera cases were treated with various combinations before complete success was obtained. Those who had the disease in only mild form recovered when they were given sulfadiazine, salt solution and stimulants; but in cases of greater severity, penicillin, sulfadiazine and plasma were necessary.

Cholera is an infection of the large intestine in which rapid loss of fluid from the blood through the bowel produces dehydration, shock and collapse. Kidneys fail to function, and muscle cramps develop as a result of fluid and mineral loss.

Cholera is strictly a disease of man; there is no infection in animals which corresponds to it. The germs live for weeks or months in water, and they can survive in certain foods for days, and in milk until it turns sour.

Control of the disease is difficult, as the strictest sanitation is necessary to prevent its spread. Those who travel in areas designated by military authorities or public health officials as cholera danger-centers should receive vaccine injections before they enter.

All ages and races and both sexes are equally susceptible to cholera. Not everyone who consumes infected water or food develops the disease, for fatigue, worry, and exposure seem to predispose.

One attack confers protection for life.

## Love Has Two Faces

By Irene Lonnen Ernhart

Copyright, 1947.  
NEA SERVICE, INC.

THE STORY: Mike Carrell went off to war without saying anything definite to Cassie Fletcher. On his return, he proposes. But marriage to Mike means living in San Francisco and Cassie hesitates to leave the family of which she is the main support. They quarrel. Mike drives Cassie home, refuses her father's invitation to stay to dinner. He says he'll phone next day for her final answer.

IV

"I THOUGHT maybe you and him would get married, when he came back, Cassie," Papa said, squinting after Mike's car as he got out his pipe and little sack of tobacco and started shaking tobacco into the bowl.

"No, I don't think so, Papa," Cassie said. She tried to keep her voice even and casual, but her mouth started quivering and she turned away from Papa and walked swiftly into the house.

She went into the room she and Leni shared, flinging her purse on the bed, taking off the flower hat she'd worn for Mike, starting to take off the smart faille suit.

Out in the kitchen Mama and Leni were arguing as usual. "But Mama, I promised I'd go. It's the first time Leni has invited me to his house. They got a swimmin' pool of their own."

Mama came into the bedroom, her face red with perspiration and anger. Like a child coming to its mother, Cass thought with a twinge, instead of a mother coming to her child.

"I want you should see the bathing suit Leni went uptown and bought this afternoon. I want that you should see it, Cassie, nothing but a brassiere and a skimpy pair of pants that look like underwear. She might just as well go parading in her pink underwear every bit!"

"Bathing suit? Where did she get the money?" Cassie asked wearily.

the death rate in epidemics was nearly 80 per cent.

Administering salt water (to overcome fluid and mineral loss) and stimulants dropped the rate to about 16 per cent; sulfonamides and salt solution brought it down to 2 per cent. The plasma, penicillin and sulfadiazine series has to date prevented death in every case.

At the present time cholera develops only in tropical and sub-tropical countries, largely as a result of faulty environmental conditions. Sanitation, vaccination, and modern methods of treatment should bring cholera under control throughout the world.

QUESTION: My husband is Rh negative and I am Rh positive. We have lost two children. Our doctor told us the deaths probably were not due to a blood condition. What is your opinion.

ANSWER: I would agree with your physician that in your case the deaths were probably not the result of Rh blood incompatibility. Recent investigations suggest, however, that some couples with your combinations of blood may have trouble, though it happens only rarely.

**Licenses Are Granted**  
Licenses were issued Tuesday to Goldin's Market, 206 West Main street, for original package beer, to expire February 4, 1948, and to the State Fair room at the Bothwell hotel for liquor by the drink, to expire December 31, 1947.

206 E. 3rd Phone 780

"She charged it at the Fair on your account," "Oh Leni!" Cassie said.

LENI, her pretty mouth in a pout, followed Mama in. Mama opened the crumpled green sack and brought it out, a rose colored jersey bathing suit, trimmed with black binding. It was brief enough to be crushed into a single hand.

"Four ninety-eight!" Mama said triumphantly, as if that were the last straw. "Imagine!"

Leni stared at Cassie, her eyes filling with quick tears that glistened on her long black lashes. "Do you want me to go to the Caven-dish's pool in that little old cotton knit bathing suit I've had since I was 14?" she asked. "Do you?"

Well I won't go, if I have to wear everybody's think? I know I can't dress like they do when I go dancing, or have a fur coat in the winter, but a bathing suit—just a marked-down bathing suit, four dollars and ninety-eight cents! I could at least have that much. I never have anything nice!" she screamed.

She looked at Cassie. "But I will some day! Just wait and see if I don't have everything I want some day, a fur coat, and nylon stockings, and pretty dresses, and good shoes, and a decent place to live in, all my own. An apartment! Yes I will. I'll have an apartment of my own with pretty lamps and nice rugs."

"You can keep the bathing suit, Leni," Cassie said quietly.

A whiff of greasy smoke drifted into the sitting room from the kitchen, past the bedroom door. It smelled acrid, pungent.

Mama sniffed the air. "Oh my, the potatoes are scorching!" She limped out.

"Thanks, Cass," Leni said. She went to the small dressing table mirror and held the brief bathing suit trunks against her, twisting

her slim hips. "Lon's invited me out for a moonlight swim in their pool. They're having sort of a party."

"Maybe you'd like to wear that rose linen dress of mine, then, Leni. If I turned up the hem, it would just about fit you."

"Oh Cass! I was afraid to ask," Leni flew to the closet.

"Oh Mike!" Cassie thought, "if you could only realize how they all depend on me."

THE rose linen dress fit Leni to perfection. Cassie hurried her dinner so that she could hem it up. Leni called for Leni at 8. She leaned and kissed Cassie on the cheek, before she skipped out. "Thanks for everything, Cassie!" she whispered. Her swimming things were in a little black overnight case. Her hair, upswep, had the usual flowers in it, white this time. White daisies. They looked like stars against the bright curly mass of her hair.

Leni was very lovely. Her freshness and beauty made Cassie, who was only 24, feel suddenly old. "I am a little old already," she thought. "If I don't marry Mike, maybe I'll never get married. Never." It wasn't very pleasant to think about—taking care of Mama and Papa always, even after Sid and Leni were grown up and gone. But she faced that possibility.

A cold feeling clutched at her heart. She must think hard. Mike had said he'd call tomorrow. It was the last chance. The last chance for a happy life with Mike.

From the front porch came the first faint plunkings from Papa's banjo. Mike's mentioning it had given him the urge to play again. The music rippled softly. And Cassie remembered when she and Mike used to come home evenings in the summer, a long time ago, before he'd gone away. Mama would have already gone to bed, and Sid and Leni too, and Papa would be sitting on the porch in the swing by the trumpet vine playing his banjo softly.

Her throat ached with longing and indecision. There must be some way out. There had to be! (To Be Continued)

## Los Angeles Was Hotter Than Desert

LOS ANGELES, Feb. 5—(P)—Los Angeles was hotter than the desert Tuesday.

The official ground level maximum was 86, warmest since last Oct. 25, when it was 90 and one degree higher than the top Tuesday at Indio, Calif., in the desert.

Even the rooftop thermometers perspired with an 82 reading, tying the all-time roof record here for Feb. 4, set in 1917.

## Milk-Producing Billy Goat

Sambo, black, shaggy-haired Billy goat of Mrs. W. R. Cotton-grim, above, of Coffeyville, Kas., has been an all-out family man, but each spring he turns himself into a one-goat dairy and produces a gallon of milk daily. Sambo showed no extra-curricular activities during his first year of life, then his milk glands became active and he has freshened each spring. (NEA TELEPHOTO)

### Community News from KNOB NOSTER

Word has been received by relatives in Knob Noster of the death of Enos W. McKibben, of Rushville, Ind. The family resided in

Knob Noster and northeast of Knob Noster for many years. Besides his wife, who was Fannie Colvin, he is survived by four sons, also one sister, Mr. Eliza Steven, of southeast of Knob Noster. One brother, John G. McKibben of Knob Noster died about twelve years ago.

Mr. and Mrs. O'Dell Rose entertained members of the high school basketball team at the Rose Cafe at dinner Friday evening, after which they attended the Springfield-Warrensburg game in Warrensburg. Present were: Foster McGuire, Robert Weikal, Teddy Zink, Eddie Howerton, Russell Duffer, Donald Everts, Ray Earl Easley and Max Gist, and C. J. Ford, coach and O'Bannon Marshall.

Mr. and Mrs. Robert Breon and son Leonard Kendrick were Sunday dinner guests of her parents, Mr. and Mrs. George A. Kendrick and daughter Irene.

Ray Earl Easley was a weekend guest of Billy Means, in Pleasant Hill.

Mrs. Arthur Johnson and daughter Virginia Sue, of Kansas City, are spending this weekend with her parents, Mr. and Mrs. H. C. Gillum and her aunt Miss Mary Mahin.

O. W. Peithman returned from St. Louis Thursday night where he attended the American Retailers Convention and also visited his brother, Homer Peithman of Irvington, Ill., who is ill.

Frank N. Neitzert returned from Ottumwa and Syracuse Wednesday evening where he spent several days with relatives.

Mr. and Mrs. Gardner Boyd and Mr. and Mrs. James Boyd of Kansas City, spent the weekend here with their parents, Mr. and Mrs. D. E. Boyd.

Mr. and Mrs. Roy Neighbors and T. E. Williams attended a birthday dinner at the home of Mrs. Laura Douglas, in Leeton, Sunday to celebrate Mrs. Douglas birthday anniversary.

Mr. and Mrs. H. A. Wimer and daughter Mrs. Jack Oxley and Mrs. Helen Davis spent Tuesday in Kansas City.

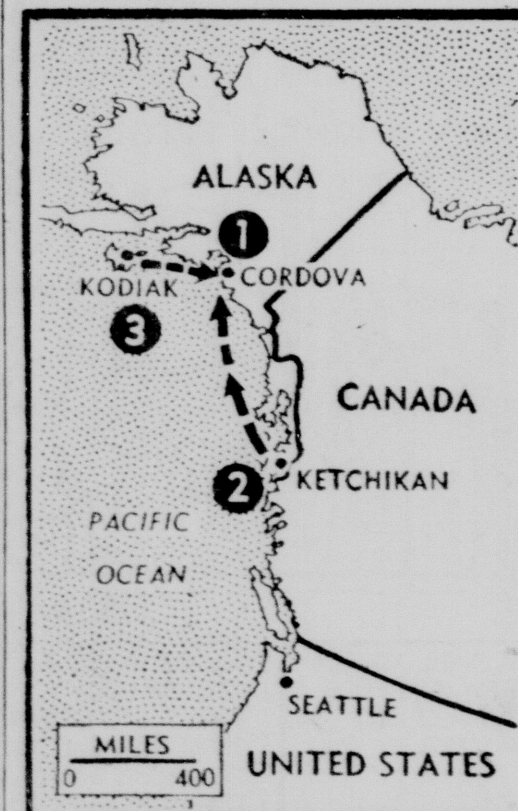

The Bicycle lizard of Australia's dry Queensland plains, runs around on his hind legs with movements like a cyclist's. It obtains water by absorbing dew at night through its skin.

Tung nut production is expanding faster than any other American farm crop, according to 1946 Department of Agriculture reports.

The first German plane shot down by the AAF in World War II was a Focke-Wulf Kurier, caught in the sights of a P-38E over Iceland a few hours after the U. S. declared war.
